Agenda for Regular Meeting of the Board of Directors of the Palmdale Water District to be held at the District's office at 2029 East Avenue Q, Palmdale

Wednesday, July 10, 2013 7:00 p.m.

<u>NOTE:</u> To comply with the Americans with Disabilities Act, to participate in any Board meeting please contact Dawn Deans at 661-947-4111 x1003 at least 48 hours prior to a Board meeting to inform us of your needs and to determine if accommodation is feasible.

Agenda item materials, as well as materials related to agenda items submitted after distribution of the agenda packets, are available for public review at the District's office located at 2029 East Avenue Q, Palmdale. Please call Dawn Deans at 661-947-4111 x1003 for public review of materials.

<u>PUBLIC COMMENT GUIDELINES:</u> The prescribed time limit per speaker is three-minutes. Please refrain from public displays or outbursts such as unsolicited applause, comments, or cheering. Any disruptive activities that substantially interfere with the ability of the District to carry out its meeting will not be permitted and offenders will be requested to leave the meeting.

Each item on the agenda shall be deemed to include any appropriate motion, resolution, or ordinance to take action on any item.'

- 1) Pledge of Allegiance.
- 2) Moment of Silence for Murray Pond, Palmdale Irrigation District (PWD) Manager 1953 to 1958 and for the Prescott, Arizona firefighters.
- 3) Roll Call.
- 4) Adoption of Agenda.
- 5) Public comments for non-agenda items.
- 6) Presentations:

No presentations scheduled at this time.

July 3, 2013

- 7) Action Items Consent Calendar (The public shall have an opportunity to comment on any action item as each item is considered by the Board of Directors prior to action being taken.)
 - 7.1) Approval of minutes of regular meeting held June 26, 2013.
 - 7.2) Approval of minutes of special meeting held June 26, 2013.
 - 7.3) Payment of bills for July 10, 2013.
- 8) Action Items Action Calendar (The public shall have an opportunity to comment on any action item as each item is considered by the Board of Directors prior to action being taken.)
 - 8.1) Consideration and possible action on request received from Lydell and Dell Gordon to waive deposit policies to establish a water service account. (Finance Manager Williams)
 - 8.2) Status report on Cash Flow Statement and Current Cash Balances as of May 31, 2013. (Financial Advisor Egan/Finance Committee)
 - 8.3) Status report on Financial Statements, Revenue and Expense and Departmental Budget Reports for May 31, 2013. (Finance Manager Williams/Finance Committee)
 - 8.4) Status report on committed contracts issued. (Engineering Manager Knudson/Finance Committee)
 - 8.5) Consideration and possible action on amendment to contract with Aspen Environmental Group for the Littlerock Reservoir Sediment Removal Project EIR/EIS/Permit assistance. (\$530,560.00 2013A Series Water Revenue Bond Engineering Manager Knudson/Water Supply & Reliability Committee)
 - 8.6) Consideration and possible action on Board and staff attendance at conferences, seminars, and training sessions as follows:
 - a) 2013 NEOGOV Annual User Conference to be held October 3 4, 2013 in Las Vegas, Nevada.
- 9) Information Items:
 - 9.1) Reports of Directors: Meetings, Committee meetings, and general report.
 - 9.2) Report of General Manager.
 - 9.3) Report of Attorney.
- 10) Public comments on closed session agenda matters.
- 11) Closed session under:
 - 11.1) Government Code Section 54956.9(d)(1), pending litigation: *Antelope Valley Ground Water Cases*.

- 11.2) Government Code Section 54956.9(d)(1), pending litigation: *United States, et al.* v. J-M Manufacturing Company, Inc., et al., United States District Court for the Central District of California Case No. ED CV06-0055-GW.
- 11.3) Government Code Section 54956.9(d)(1), pending litigation: Central Delta Water Agency vs. Department of Water Resources, Sacramento Superior Court Case No. 34-2010-80000561.
- 11.4) Government Code Section 54956.9(d)(1), pending litigation: Velez v. City of Palmdale, et al, Los Angeles Superior Court Case No. MC023216.
- 11.5) Government Code Section 54957, Public Employee Discipline.
- 12) Public report of any action taken in closed session.
- 13) Board members' requests for future agenda items.
- 14) Adjournment.

PALMDALE WATER DISTRICT

BOARD MEMORANDUM

DATE: July 3, 2013 **July 10, 2013**

TO: BOARD OF DIRECTORS Board Meeting

FROM: Mr. Bob Egan, Financial Advisor

RE: AGENDA ITEM NO. 8.2 – STATUS REPORT ON CASH FLOW STATEMENT AND

CURRENT CASH BALANCES AS OF MAY 31, 2013

Attached is the Investment Funds Report and current cash balance as of May 31, 2013. The reports will be reviewed in detail at the Board meeting.

Cash is up \$568,000 from April from some of the following factors:

Water sales are up \$300,000 from the original cash flow projection, increasing cash collections as well. There were capital improvement fees received of \$48,031 and a DWR refund of \$35,285.

Other items on the cash flow are consistent with prior months, and we still show an increase of cash over budget at year end of over \$2,000,000.

PALMDALE WATER DISTRICT

BOARD MEMORANDUM

DATE: July 2, 2013 **July 10, 2013 TO:** BOARD OF DIRECTORS **Board Meeting**

FROM: Michael Williams, Finance Manager/CFO **VIA:** Mr. Dennis LaMoreaux, General Manager

RE: AGENDA ITEM 8.3 - STATUS REPORT ON FINANCIAL STATEMENTS,

REVENUE AND EXPENSE AND DEPARTMENTAL BUDGET REPORTS FOR

MAY 31, 2013

Discussion:

Presented here are Balance Sheet and Profit/Loss Statement for the period ending May 31, 2013. Also included are Year-To-Year Comparisons, and Month-To-Month Comparisons for both revenue and expense. Finally, I have provided individual departmental budget reports for the month of May, 2013.

This is the fifth month of the District's Budget Year 2013. The target percentage is 41.6%. Revenues ideally are at or above, and expenditures ideally are below.

Balance Sheet:

• Page 1 is our balance sheet on May 31, 2013. Here there are a few major changes; the 2013A Water Revenue Bonds were issued. We show the new money available for projects and the costs associated with the issue under the assets section. Under the Liability section we show the retirement of the 2004 COP's and the combined 2013A issue.

Profit/Loss Statement:

- Page 3 is our profit/loss statement on May 31, 2013.
- Operating revenue is at 38% of budget.
- Cash operating expense is at 34% of budget.
- All departments are operating at or below the target 41.6% in their respective budget with the exception of Engineering, which is at 43%. This is due to the payment for the GIS project.
- Also included is the make-up of other operating revenues.

Year-To-Year Comparison P&L:

- Page 7 is our comparison of May, 2012 to May, 2013.
- Total operating revenue is up by \$332K, or 20%. This is due to increased consumption.
- Operating expenditures are up by \$184K, or 14%.
- Page 8 is a graphic presentation of the water consumption comparison. Units billed in acre feet were up by 228, or 16%. Units consumed per connection were up by 4. Total operating revenue per unit consumed was up by \$0.10, or 3%.

BOARD OF DIRECTORS PALMDALE WATER DISTRICT

VIA: Mr. Dennis LaMoreaux, General Manager -2- July 2, 2013

Revenue Analysis Year-To-Date:

- Page 9 is our comparison of revenue, year-to-date.
- Operating revenue through May, 2013 is up by \$1.1MM, or 15%, compared to 2012.
- Total revenue is up \$91K, or .8%. The reason for this is the huge difference in capital improvement fees. Last year this time we had collected \$1.2MM in fees as compared to the current negative position because of the refunding of fees.

Expense Analysis Year-To-Date:

- Page 11 is our comparison of expense, year-to-date.
- Cash Operating Expenses through May, 2013 are down by \$1.6MM, or 22%, compared to 2012. This is due primarily to the reduction in legal and adjudication expense under Administration and reduced expenses in Facilities and water purchases. In fact, every department has reduced expenses year-to-date.
- Total Expenses are down by \$3MM, or 20%, compared to 2012. This is due to reductions in a few areas such as depreciation, OPEB and interest on long term debt.

Departments:

• Pages 14 through 22 are detailed budgets of each department. As stated earlier, all departments are below the target 41.6%, with the exception of Engineering on page 16.

Non-Cash Definitions:

Depreciation: This is the spreading of the total expense of a capital asset over the expected life of that asset.

OPEB Accrual Expense: Other Post Employment Benefits (OPEB) is the recognized annual required contribution to the benefit. The amount is actuarially determined in accordance with the parameters of GASB 45. The amount represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year.

Bad Debt: The uncollectible accounts receivable that has been written off.

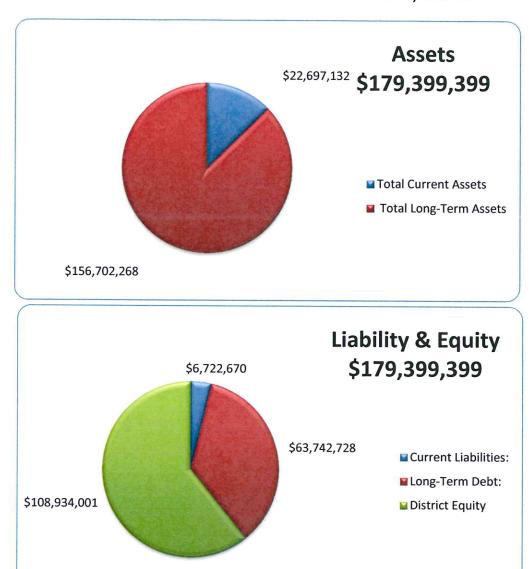

Service Cost Construction: The value of material, parts & supplies from inventory used to construct, repair and maintain our asset infrastructure.

Capitalized Construction: The value of our labor force used to construct our asset infrastructure.

PALMDALE WATER DISTRICT BOARD MEMORANDUM

DATE: July 3, 2013 **November 14, 2012**

TO: BOARD OF DIRECTORS Board Meeting

FROM: Mr. Matthew Knudson, Engineering Manager
VIA: Mr. Dennis D. LaMoreaux, General Manager

RE: AGENDA ITEM NO. 8.5 – CONSIDERATION AND POSSIBLE ACTION

ON AMENDMENT TO CONTRACT WITH ASPEN ENVIRONMENTAL GROUP FOR THE LITTLEROCK RESERVOIR SEDIMENT REMOVAL

PROJECT EIR/EIS/PERMIT ASSISTANCE.

Recommendation:

Staff and the Water Supply and Reliability Committee recommend that the Board:

- 1. Approve Task Order No. 1, which includes Tasks 1-7 and 12 as listed on the attached Exhibit "A-2" with Aspen Environmental Group, in the not-to-exceed amount of \$515,925.00; and
- 2. Authorize the General Manager to execute an amendment with Aspen Environmental Group utilizing the District's standard professional services amendment form for same.

Project Background:

Aspen has begun or completed significant amounts of work since contract issuance in September 2004. The Project has undergone changes since that time and current scope of work proposed under Task Order No. 1 will complete all remaining tasks through publication of the Draft EIR/EIS, permit support (those activities that must be done concurrently with NEPA/CEQA analysis), public involvement, and engineering/feasibility support as needed for NEPA/CEQA review.

The attached Fact Sheet and Exhibit A-2 explain in detail the scope of work, tasks, hourly rate, and estimated hours associated with this proposed Task Order No. 1.

Budget

This project is identified as one of the projects that will be funded from the Water Revenue Bonds, Series 2013A proceeds. District staff has allocated \$975,000.00 of said Bond proceeds to be used for this project.

BOARD OF DIRECTORS PALMDALE WATER DISTRICT

VIA: Mr. Dennis D. LaMoreaux, General Manager July 3, 2013

Strategic Plan Element

Strategic Goal 3.4 - Maintain Littlerock Reservoir Storage Capacity

- Fact Sheet Littlerock Reservoir Sediment Removal
- Exhibit A-2 Proposed Cost for Engineering/Feasibility, Environmental Analysis & Permitting Support through Draft EIR/EIS Publication

Fact Sheet

Littlerock Reservoir Sediment Removal Project

Aspen Environmental Group's Engineering/Feasibility, Environmental Analysis, and Permitting Support through Draft EIS/EIR Publication

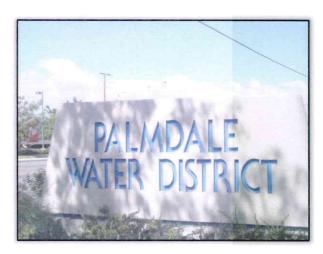

Aspen has begun or completed significant amounts of work since contract issuance in September 2004. The Project has undergone changes since that time, and the current scope of work proposes to complete all remaining tasks through publication of the Draft EIR/EIS, permit support (those activities that must be done concurrently with NEPA/CEQA analysis), public involvement, and engineering/feasibility support as needed for NEPA/CEQA review.

Quick Facts

- Initial Contract Issuance: September 2004
- Number of CEQA/NEPA Tasks: 8
- Future/Optional Tasks: 5
- Sediment Expected to be Removed in 2005: 540,000 cubic yards
- Sediment Expected to be Removed Currently: 972,000 cubic yards
- Listed Species in Reservoir Area: arroyo toad, least Bell's vireo

History and Background

Since September 2004, Aspen has conducted many activities related to the environmental analysis and review process, including ongoing development of the project description and alternatives, regular agency coordination and meeting attendance, and preparation of an Administrative Draft EIS/EIR submitted to the District in April 2007. Several technical reports and other documents have also been prepared, including a Cultural Resources Report for the Reservoir, Standard Cultural Resources Mitigation Measures (approved by the Forest Service), and a Draft Biological Resources Technical Report. Aspen has also provided assistance to the Forest Service in preparing the Project Cost Recovery Agreement and Memorandum of Understanding between the District and Forest Service. At the request of the Forest Service, Aspen prepared several NEPA procedural background/technical memoranda (NEPA Connected Actions, Cumulative Analysis, and Alternatives Analysis; and Permitting Requirements).

Although much work has been conducted since 2004 and the results of this work will prove extremely useful to completion of the Project's environmental analysis, Aspen has conducted many of these activities out of scope. In addition, delays in the Project schedule and changes/refinements to the Project Description and Alternatives require update of the environmental analysis conducted for the 2007 Administrative Draft EIS/EIR (which has not been reviewed by the Forest Service).

The Reservoir, including the proposed grade control structure location, has been surveyed for biological resources over multiple years. Additional surveys or field work is needed, but would be limited to only those activities essential to complete the Draft EIR/EIS and reports required under the Forest Land Management Plan including the Management Indicator Species Report, Habitat Mitigation and Monitoring Plan, and Operations and Maintenance Plan. See the Biological Resources Studies, Plans, and Reports below for details.

Littlerock Reservoir Sediment Removal Project

Summary of Tasks

EIS/EIR

- Project Initiation Following a Notice to Proceed, the Project schedule will be developed and refined, including timing of engineering/feasibility study and the CEQA/NEPA scoping process.
- Project and Alternatives Description Refinement The Aspen Team will use the Project information
 developed thus far with the District to refine the
 Project and alternatives description for the
 CEQA/NEPA analysis.
- EIS/EIR Preparation Update of the 2007 Draft EIS/EIR. The methodology and criteria used for determining impacts of the Project will be described in each technical section of the EIS/EIR, including any assumptions, models, or modeling techniques used in the analysis. Determination of impacts will be based on thresholds of significance developed in accordance with NEPA and CEQA requirements, the District and USFS's guidelines and requirements, and other recently approved environmental documents. The effectiveness and feasibility of mitigation measures will be discussed, and the level of significance after mitigation will be identified.

Upon close of the Draft EIS/EIR public review period, Aspen will prepare the Final EIS/EIR, which will contain a list of commenters, comment letters, responses to comments on the Draft EIS/EIR, the EIS/EIR text with revisions, and the Mitigation Monitoring and Reporting Program (per CEQA Guidelines §15097).

Aspen will prepare the CEQA-required Findings of Fact document and Statement of Overriding Considerations for the EIR.

Biological Resources Studies, Plans, and Reports

- State and federal jurisdictional wetlands/waters
 delineation and associated Preliminary Jurisdictional
 Delineation Report for three locations: 1) the
 reservoir and grade control site; 2) the proposed
 sediment disposal site on National Forest System
 lands adjacent to Reservoir; and 3) alternative offsite sediment disposal site(s).
- Forest Service sediment deposition site botanical

- surveys and vegetation mapping, general wildlife reconnaissance surveys, and habitat assessments.
- Alternative sediment disposal site(s) botanical surveys and vegetation mapping (including inventory of Joshua trees), protocol surveys for desert tortoise and burrowing owl, and Mohave ground squirrel habitat assessment. For potential sediment disposal sites at local quarries, Aspen will conduct reconnaissance wildlife and botanical surveys along proposed haul routes to identify weed sources or sensitive plants or wildlife that could be affected from the use of the roads at traffic levels above the current baseline.

Public Involvement

Public involvement activities conducted thus far for the Project include the CEQA and NEPA scoping process conducted in Fall 2005, including development of the project mailing lists, preparation of the PWD Notice of Preparation, the USFS Notice of Intent, preparation and distribution of the scoping meeting notice, a public scoping meeting, preparation of scoping meeting handouts and presentation, and preparation of the scoping process summary. The Forest Service has requested a comprehensive and detailed public involvement program be conducted for the Project's environmental review process, including re-scoping. The details of the program are included within the approved Littlerock Reservoir Sediment Removal Project Public and Agency Involvement Plan (May 2012), and public involvement activities associated with the Project through Draft EIS/EIR publication will be completed consistent with the Plan.

Environmental Group

Littlerock Reservoir Sediment Removal Project

Permitting Support

Many permitting activities must be initiated concurrent to the CEQA/NEPA environmental review process to ensure that permit requirements are incorporated into the EIS/EIR and permits are acquired in a timely manner. The Aspen Team's proposed permitting task would include permitting under the following issue areas: Land Use, Biological Resources, and Air Quality.

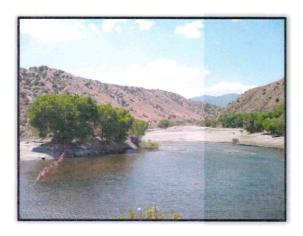

Project Management

The purpose of this task is to manage the Aspen Project Team, manage the EIS/EIR preparation effort, and maintain close communication between lead agencies' (i.e., District and USFS) staff members and the Project team members. This task is also intended to ensure that the Project is running on time and within budget, and that all work products are of the highest quality. It includes the following: Project Coordination Activities, Project Meetings, and Administrative Record.

Excavation and Grading Plan

This task will consist of developing 30% grading/ excavation plans and technical specifications for removal of the material from the reservoir and placement in the disposal area. Although a conceptual excavation and grading plan was developed by Aspen in 2005, it needs to be revised and updated for the following reasons:

- The quantity of sediment evaluated in 2005 would no longer be sufficient to return capacity to the 1995 level, because additional sediment has accumulated over the last eight years.
- The 2005 study did not evaluate placement of excavated sediment in the adjacent canyon, as is now proposed.
- Excavation of nearly twice the sediment volume evaluated in the 2005 study will likely result in a different effect on the reservoir bed than was estimated in 2005.

Grade Control Design

The grade control structure design of 2005, and subsequent iterations of the same design, was based on an expectation of 540,000 cubic yards of material excavated from the reservoir. This concept now needs to be revised to be consistent with the excavation plan to be developed under the Excavation and Grading Plan task (above), and in a manner that will lead to final design for construction.

Topographic Mapping

Topographic mapping is necessary as a basis for design of the grade control, excavation area, and disposal area. Topographic maps of the reservoir have been made most recently in 2007. This mapping needs to be updated for the following reasons:

- Since 2007 approximately 324,000 cubic yards of sediment is expected to have accumulated in the reservoir, raising the reservoir bed level 1.5 feet higher on average than in 2007. This sediment is likely to have been deposited disproportionately in the upper reaches.
- Updated topographic information for the reservoir is needed to develop an accurate excavation quantity and plan, and as a design base for the grade control design.
- Previous topographic mapping has been limited to the reservoir area. There is no available mapping for the disposal canyon or roadway area.

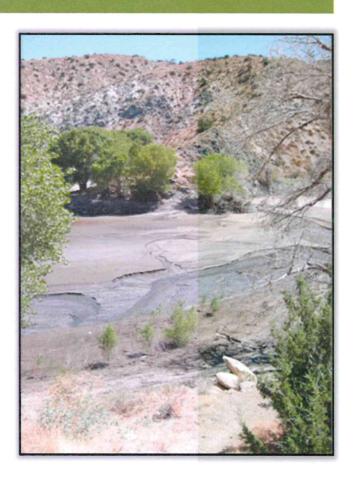

Littlerock Reservoir Sediment Removal Project

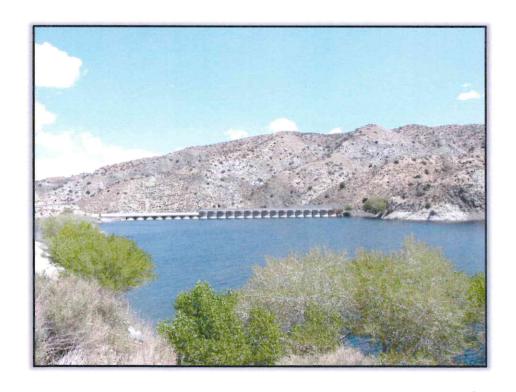

Future and/or Optional Tasks

At this time, the following future and optional tasks have been identified:

- Roadway Engineering (National Forest boundary to the Rocky Point Campground) at the request of the Forest Service
- Engineering Support for Restoration
- Design Workshops
- Geotechnical Investigations
- Potential Funding Opportunities

These tasks would need to occur prior to Project construction. However, the first Task Order is anticipated to be focused on environmental review and permitting through Draft EIS/EIR publication.

NEOGOV Encounter 2013

We invite you to join us for our 12th annual user conference in Las Vegas, Nevada.

Pre-conference training will take place on Wednesday, October 2nd.

Preliminary Session Topics:

Roadmap for All NEOGOV Products

Join NEOGOV's Product Strategy Team for a popular and informative outline of the 2014 NEOGOV roadmap.

Conducting Performance Evaluations

Align individual performance with strategic organization objectives and defined performance standards.

System Administration

Tallor the system to meet the specific needs of your organization.

Roundtable Discussions on HR Topics/Challenges

Exchange information with your colleagues and learn how they handle similar HR situations.

Speed Consulting

Have a quick question regarding Insight functionality? Struggling with a general business process and want to know how Insight can address that? Answers will be available to you directly from a NEOGOV Team Member during the conference.

Onboard

Start new hires more quickly by completing the I-9, W-4 and other forms all online.

Testing-Tips for the Best Practices

Learn best practice tips for creating and conducting tests within your organization.

Get the Most Out of Social Media

Take social interaction to the next level by using available social networks.

Utilize Insight Features S for Your Organization

We will demonstrate the latest Insight system enhancements and discuss the best practices for incorporating these features into your process.

Streamline Your Online Application Process

Making even the smallest changes will have a positive impact on a more efficient application process.

Search Committees and Police/Fire Recruiting

Discover new tips for managing various recruitments.

Networking with OtherUsers in Similar Organizations

Share and gain experience with other users.

MINUTES OF MEETING OF THE FACILITIES COMMITTEE OF THE PALMDALE WATER DISTRICT, MAY 21, 2013:

A meeting of the Facilities Committee of the Palmdale Water District was held Tuesday, May 21, 2013, at 2029 East Avenue Q, Palmdale, California, in the Board Room of the District office. Chair Alvarado called the meeting to order.

1) Roll Call.

Attendance:

Facilities Committee: Robert Alvarado, Chair Gordon Dexter, Committee Member

Others Present:

Dennis LaMoreaux, General Manager Matt Knudson, Engineering Manager Peter Thompson II, Operations Manager Randy Hardenbrook, Equipment Mechanic Spvsr.

Kelly Jeters, Systems Supervisor

Amanda Williams, Water Quality Supervisor

Dawn Deans, Executive Assistant

0 members of the public

2) Adoption of Agenda.

It was moved by Committee Member Dexter, seconded by Chair Alvarado, and unanimously carried to adopt the agenda, as written.

3) Public Comments.

There were no public comments.

4) Action Items:

4.1) Consideration and Possible Action on Approval of Minutes of Regular Meeting Held April 23, 2013.

It was moved by Committee Member Dexter, seconded by Chair Alvarado, and unanimously carried to approve the minutes of the Facilities Committee meeting held April 23, 2013, as written.

4.2) Consideration and Possible Action on Agreement for Water Storage Tank Maintenance Services. (\$319,000.00/Year for 5-Years – Budgeted – Engineering Manager Knudson)

Engineering Manager Knudson reviewed the proposed Agreement with Superior Tank Solutions, Inc. for water storage tank maintenance services, and after a brief discussion of the terms of the agreement, the tanks scheduled for maintenance, and maintenance standards, it was moved by Committee Member Dexter, seconded by Chair Alvarado, and unanimously carried to present the proposed Superior Tank Solutions, Inc. Agreement to the full Board for consideration with the Committee's recommendation for approval.

5) Information Items.

5.1) Update on Facilities Committee Goals and District Projects. (Chair Alvarado)

Equipment Mechanic Supervisor Hardenbrook informed the Committee that work continues on current projects including repair of Well No. 21, the valve job on Well No. 15, required source testing, annual gasoline tank testing, and the search for a used dump truck and backhoe.

Engineering Manager Knudson informed the Committee that staff looks forward to utilizing the newly acquired bond funds for needed water main replacement projects, the Littlerock Dam Sediment Removal Project, the Littlerock Dam Recharge Project, and participation in the Upper Amargosa Recharge Project.

Operations Manager Thompson II informed the Committee that work continues on the SCADA radio backbone upgrade, and several equipment failures occurred requiring replacement.

Systems Supervisor Jeters informed the Committee of the SCADA radio backbone upgrade details, the PLC seismic valve rebuilds, and annual Edison efficiency testing.

5.2) Update on Pending Water Quality Regulations. (Operations Manager Thompson II)

Water Quality Supervisor Williams provided an overview of the District's compliance with the Stage II Disinfection Byproduct Rule including staff's operational efforts to reduce Total Trihalomethanes, test locations and results, the benefit of localized GAC at the underground booster site, and varying lake temperatures.

5.7) Other.

There were no additional information items.

6) Board Members' Requests for Future Agenda Items.

There were no further requests for future agenda items.

The next Facilities Committee meeting was then scheduled for June 25, 2013 at 5:00 p.m.

7) Adjournment.

There being no further business to come before the Facilities Committee, the meeting was adjourned.

Chair

MINUTES OF MEETING OF THE WATER SUPPLY & RELIABILITY COMMITTEE OF THE PALMDALE WATER DISTRICT, MAY 24, 2013:

A meeting of the Water Supply & Reliability Committee of the Palmdale Water District was held Friday, May 24, 2013, at 2029 East Avenue Q, Palmdale, California, in the Board Room of the District office. Chair Dexter called the meeting to order.

1) Roll Call.

Attendance:

Others Present:

Water Supply & Reliability Cmte:

Gordon Dexter, Chair Gloria Dizmang, Committee

Member

Dennis LaMoreaux, General Manager

Robert Alvarado, PWD Director Dawn Deans, Executive Assistant

0 members of the public

2) Adoption of Agenda.

It was moved by Committee Member Dizmang, seconded by Chair Dexter, and unanimously carried to adopt the agenda, as written.

3) Public Comments.

There were no public comments.

4) Action Items:

4.1) Consideration and Possible Action on Approval of Minutes of Meeting Held April 26, 2013.

It was moved by Committee Member Dizmang, seconded by Chair Dexter, and unanimously carried to approve the minutes of the Water Supply & Reliability Committee meeting held April 26, 2013, as written.

4.2) Presentation of Monthly Water Demand and Supply Status. (Water & Energy Resources Manager Pernula)

General Manager LaMoreaux reviewed the water supply projections and charts included with the agenda packet and informed the Committee that water production through April is 8% higher than 2012; that consumption and production are higher than budgeted; that staff will continue to monitor per capita water use to ensure it is

maintained below the 2020 goal; and that water will be taken from Littlerock Reservoir beginning next week to the minimum pool level followed by discussion of water service to mutual water companies and selling State Water Project supply.

4.3) Discussion of the District's Water Banking Opportunities. (Chair Dexter)

General Manager LaMoreaux informed the Committee that staff met with the General Manager of the Antelope Valley Water Bank yesterday, who inquired as to the District's interest in the Antelope Valley Water Bank; that the District has some water in this Bank through a sublease; and that staff informed him of the District's upcoming Littlerock Recharge Project but if supplies were available prior to the completion of the Littlerock Recharge Project, the District may consider storage in the Antelope Valley Water Bank on an interim basis.

4.4) Status on the Operations of the State Water Project. (Water & Energy Resources Manager Pernula)

General Manager LaMoreaux informed the Committee that the Delta Plan was approved last week, and the State Water Contractor's Board will debate legally challenging this decision; that there has been no further discussion of reducing the State Water Project allocation; and that a tour of the Oroville facilities is scheduled for June 7 followed by review and discussion of the details of the Delta Plan, the Bay Delta Conservation Plan, and the Water Bond.

5) Project Updates.

5.1) Palmdale Recycled Water Authority. (General Manager LaMoreaux)

General Manager LaMoreaux reported on the purpose of the proposed website for the Palmdale Recycled Water Authority followed by discussion of the timing for development of this website.

5.2) Water Purchase Opportunities. (Water & Energy Resources Manager Pernula)

General Manager LaMoreaux stated that staff is reviewing several Table A water purchase opportunities and will keep the Committee informed of any progress followed by discussion of the District's written interest in suspended water supplies and the Department of Water Resources' charge for moving non-project water across the Delta.

5.3) Littlerock Dam Sediment Removal Project. (Engineering Manager Knudson)

General Manager LaMoreaux stated that an amendment to the contract with Aspen Environmental for completion of the EIR/EIS and permits for this project will be presented to the Committee for consideration and that funds for this amendment were included in the 2013A Water Revenue Bonds.

6) Information Items.

There were no additional information items to discuss.

7) Board Members' Requests for Future Agenda Items.

The next Water Supply & Reliability Committee meeting was scheduled for June 21, 2013 at 2:30 p.m.

8) Adjournment.

There being no further business to come before the Water Supply & Reliability Committee, the meeting was adjourned.

Chair

MINUTES OF MEETING OF THE OUTREACH COMMITTEE OF THE PALMDALE WATER DISTRICT, JUNE 3, 2013:

A regular meeting of the Outreach Committee of the Palmdale Water District was held Monday, June 3, 2013, at 2029 East Avenue Q, Palmdale, California, in the Board Room of the District office. Chair Dizmang called the meeting to order.

1) Roll Call.

Attendance:

Outreach Committee: Gloria Dizmang, Chair Robert Alvarado, Committee Member

Others Present:

Dennis LaMoreaux, General Manager Jim Stanton, Information Technology Manager Danielle Henry, Administrative Assistant Dawn Deans, Executive Assistant 0 members of the public

2) Adoption of Agenda.

It was moved by Committee Member Alvarado, seconded by Chair Dizmang, and unanimously carried to adopt the agenda, as written.

3) Public Comments.

There were no public comments.

4) Action Items:

4.1) Consideration and Possible Action on Approval of Minutes of Meeting Held May 6, 2013.

After a brief discussion, it was moved by Committee Member Alvarado, seconded by Chair Dizmang, and unanimously carried to approve the minutes of the meeting held May 6, 2013, as written.

4.2) Discussion of "Before the First Drop" Marketing Campaign. (Chair Dizmang)

Information Technology Manager Stanton stated that the design for posting the "Before the First Drop" marketing campaign on Facebook will be presented at the next Committee meeting for approval.

General Manager LaMoreaux then stated that the campaign's educational video will also be available for review at the next Committee meeting.

4.3) Discussion and Possible Action on Social Media Marketing Campaign. (Information Technology Manager Stanton)

Information Technology Manager Stanton stated that this campaign is tied to the "Before the First Drop" marketing campaign, and staff is ready to move forward.

4.4) Discussion and Possible Action on District Plant Sale to be Held June 22, 2013. (Water Conservation Supervisor Beck)

General Manager LaMoreaux stated that the plant sale is scheduled for June 22, 2013 from 8 a.m. to 1 p.m.; that flyers are being distributed; that the sale will be promoted through Constant Contact and the Water News; and that coupons will be included on the flyer and Constant Contact message followed by discussion of additional promotion of the sale through ads in the Antelope Valley Press.

4.5) Discussion and Possible Action on Amendment to the District's Rules and Regulations Regarding Community Presentations and Policy for Requesting District Speakers and Presentations. (General Manager LaMoreaux)

After a brief discussion of the proposed policy, the Committee concurred to present the policy for requesting District speakers and presentations as an amendment to the Rules and Regulations to the full Board for consideration at the next regular Board meeting.

- 5) Information Items.
- 5.1) Update on Aquadog Animation. (Information Technology Manager Stanton)

Information Technology Manager Stanton stated that Water Conservation Supervisor Beck is working with the animation company on a rough draft of the Aquadog animation.

5.2) Update on Application for Special District Leadership Foundation "District Transparency Certificate of Excellence." (General Manager LaMoreaux)

General Manager LaMoreaux stated that staff is working through the checklist for this Application and that the District currently meets most of the checklist requirements.

5.3) Other.

General Manager LaMoreaux distributed the next issue of Water News for Committee review followed by discussion of the articles.

He then distributed magnets that will be handed out at Thursday-Night-on-the-Square and stated that automated telephone payment options are under review.

He then stated that the Consumer Confidence Report distribution mailing list has been revised, and additional copies of the Report will be printed and mailed to customers prior to the July 1, 2013 deadline.

Director Alvarado stated that he spoke with Mayor Ledford and two Councilmen regarding Aquadog's presence at Thursday-Night-on-the-Square; that they will speak with the Event Coordinator; but that it should not be a problem for him to attend.

6) Board Members' Requests for Future Agenda Items.

There were no requests for future agenda items.

The next Outreach Committee meeting was scheduled for July 1, 2013 at 4:00 p.m.

7) Adjournment.

There being no further business to come before the Outreach Committee, the meeting was adjourned.
