#### Agenda for Regular Meeting of the Board of Directors of the Palmdale Water District to be held at the District's office at 2029 East Avenue Q, Palmdale

Wednesday, October 26, 2011 7:00 p.m.

<u>NOTE:</u> To comply with the Americans with Disabilities Act, to participate in any Board meeting please contact Dawn Deans at 661-947-4111 x103 at least 48 hours prior to a Board meeting to inform us of your needs and to determine if accommodation is feasible.

Agenda item materials, as well as materials related to agenda items submitted after distribution of the agenda packets, are available for public review at the District's office located at 2029 East Avenue Q, Palmdale. Please call Dawn Deans at 661-947-4111 x103 for public review of materials.

<u>PUBLIC COMMENT GUIDELINES:</u> The prescribed time limit per speaker is threeminutes. Please refrain from public displays or outbursts such as unsolicited applause, comments, or cheering. Any disruptive activities that substantially interfere with the ability of the District to carry out its meeting will not be permitted and offenders will be requested to leave the meeting.

Each item on the agenda shall be deemed to include any appropriate motion, resolution, or ordinance to take action on any item.

- 1) Pledge of Allegiance.
- 2) Roll Call.
- Adoption of Agenda.
- 4) Public comments for non-agenda items.
- 5) Presentations:
  - 5.1) Cash for Grass Rebates. (Water Conservation Supervisor Roberts)

- 6) Action Items Consent Calendar (The public shall have an opportunity to comment on any action item as each item is considered by the Board of Directors prior to action being taken.)
  - 6.1) Approval of minutes of regular meeting held October 12, 2011.
  - 6.2) Payment of bills for October 26, 2011.
- 7) Action Items Action Calendar (The public shall have an opportunity to comment on any action item as each item is considered by the Board of Directors prior to action being taken.)
  - 7.1) Consideration and possible action on Water Exchange/Banking Agreement between the Palmdale Water District and WDS California II, LLC. (Water & Energy Resources Manager Pernula/Water Supply & Reliability Committee)
  - 7.2) Presentation on repairs of water mains and update on water main replacement projects. (Facilities Manager Moore/Engineering Manager Knudson)
- 8) Information Items:
  - 8.1) Reports of Directors: Meetings/Committee Meetings/General Report.
    - 8.1.1) Director Godin: Finance Committee report summarizing District's financial status.
  - 8.2) Report of General Manager.
  - 8.3) Report of Attorney.
- 9) Public comment on closed session agenda matters.
- 10) Closed session under:
  - 10.1) Government Code Section 54956.9(a), existing litigation: *Antelope Valley Ground Water Cases*.
  - 10.2) Government Code Section 54956.9(a), existing litigation: City of Palmdale vs. Palmdale Water District, Case No. BC413432 (Rate Litigation).
  - 10.3) Government Code Section 54956.9(a), existing litigation: City of Palmdale vs. Palmdale Water District and Palmdale Water District Public Facilities Corporation, Case No. BC413907 (Validation Action).
  - 10.4) Government Code Section 54956.9(a), existing litigation: *Palmdale Water District* vs. City of Palmdale, Case No. BC420492 (Recycled Water Litigation).
  - 10.5) Government Code Section 54956.9(a), existing litigation: United States, et al. v. J-M Manufacturing Company, Inc., et al., United States District Court for the Central District of California Case No. ED CV06-0055-GW.
  - 10.6) Government Code Section 54956.9(a), existing litigation: Central Delta Water Agency vs. Department of Water Resources, Sacramento Superior Court Case No. 34-2010-80000561.
  - 10.7) Government Code Section 54956.9(a), existing litigation: Rosedale-Rio Bravo Water Storage District v. California Department of Water Resources, Sacramento Superior Court Case No. 34-2010-80000703.

- 11) Public report of any action taken in closed session.
- 12) Board members' requests for future agenda items.
- 13) Adjournment.

DENNIS D. LaMOREAUX,

General Manager

DDL/dd

# PALMDALE WATER DISTRICT BOARD MEMORANDUM

DATE: Oc

October 19, 2011

October 26, 2011

TO:

BOARD OF DIRECTORS

**Board Meeting** 

FROM:

Jon M. Pernula, Water & Energy Resources Manager

VIA:

Mr. Dennis D. LaMoreaux, General Manager

RE:

AGENDA ITEM NO. 7.1 – CONSIDERATION AND POSSIBLE ACTION

ON WATER EXCHANGE/BANKING AGREEMENT BETWEEN THE

PALMDALE WATER DISTRICT AND WDS CALIFORNIA II, LLC

#### **Recommendation:**

Staff recommends approval of the Water Exchange/Banking Agreement between the Palmdale Water District (PWD) and WDS California II, LLC (WDS CA II).

#### Background:

PWD's 2011 State Water Project allocation of 80%, along with ample water supplies from Littlerock Dam this year, has provided the District with an abundance of water resource. In order to better manage this resource and capitalize on available supplies, staff desires to store our excess 2011 State Water Project water in ground water banks thereby minimizing the risk of spilling at San Luis Reservoir.

WDS CA II, through its partners, holds up to 50,000 AF of Storage Capacity in the Semitropic Rosamond Water Bank Authority (SRWBA) at the Antelope Valley Water Bank (AVWB) and Semitropic Stored Water Recovery Unit (SWRU) in the San Joaquin Valley. WDS CA II is willing to exchange a part of PWD's excess water supply for Storage Capacity in one or both of these water banks and wishes to enter into an agreement with PWD to take delivery of surplus water for storage and later beneficial use. Under the agreement, WDS CA II will return a portion of the water to PWD at a later date when it is needed to meet our demands. The remaining water will stay in the service area of the State Water Contractor (SWC) where it is delivered for banking. The leave behind water will be available for future use in the SWC service area in dry years.

The exchange must be facilitated through another State Water Contractor through which the exchange takes place. We have vetted this project through our Water Supply & Reliability Committee and also through the State Water Contractors Transfers Committee. We are now seeking to complete this agreement along with several subsequent agreements needed to accomplish this strategic management goal. The first

#### BOARD OF DIRECTORS PALMDALE WATER DISTRICT

VIA: Mr. Dennis D. LaMoreaux, General Manager

October 19, 2011

step is for approval of this agreement and later to complete agreements with the Department of Water Resources, the Antelope Valley East Kern Water Agency, and Kern County Water Agency.

The mechanics of this program are set forth in the terms of the enclosed Agreement. The remaining agreements, which are to follow, will set forth the actual delivery and exchanges of the water between SWP contractors.

#### **Strategic Plan Element:**

The specific element of the Strategic Plan addressed is (Natural Resources Management) Strategic Goal 2.1 – Ensure Adequate Water Supplies for Existing and Future Customers.

#### **Budget:**

This Agreement will have no impact on the budget.

#### **Supporting Documents:**

WDS CAII/PWD Water Exchange/Banking Agreement

#### WATER EXCHANGE AGREEMENT

THIS AGREEMENT is made and effective as of October \_\_\_\_, 2011 by and between WDS California II, LLC (a California Limited Liability Company), ("WDS CA II"), and the Palmdale Water District, a California irrigation district organized and existing under the authority of Division 11 of the California Water Code ("PWD"), and is made with reference to the following facts:

- A. Palmdale Water District ("PWD") holds a contract to receive water from the State Water Project (the "SWP"), and from time to time is allocated SWP water that is surplus to its immediate needs. In addition, PWD sometimes has access to other water supplies that are not needed to meet its then-current demands. However, on a long-term basis PWD is short of water and could benefit from exchanges that allow it to deliver excess or surplus water that is not immediately needed to third parties for storage, coupled with the right to recover that water when it is needed within PWD.
- B. WDS CA II is also entitled to receive water from the SWP and it has a variety of facilities and programs that allow it to take delivery of water provided by other parties and return such water in subsequent years pursuant to a "Letter Agreement Establishing Right to Store Water in Semitropic-Rosamond Water Bank Authority Water Bank as a Lower Priority Banking Partner", dated May 5, 2011 ("SRWBA Agreement").
- C. PWD and WDS CA II, wish to enter into a program that will allow PWD to deliver surplus water to WDS CA II for storage and beneficial use and allow WDS CA II to return a portion of the water to PWD at a later date when it is needed by PWD, all on the terms set forth in this Agreement.

THEREFORE, the parties agree as follows:

#### 1. Delivery of Water.

- (a) WDS CA II through its partners holds a lease for up to 50,000 AF of Storage Capacity in the Semitropic Rosamond Water Bank Authority ("SRWBA") at the Antelope Valley Water Bank ("AVWB") and Semitropic Stored Water Recovery Unit ("SWRU"). PWD would sublet up to 5,000 AF acre-feet (AF) of storage capacity, cumulatively, at one or both facilities, subject to the SRWBA Agreement.
- (b) PWD will exchange water supplies with WDS CA II for Storage Capacity. PWD would deliver up to 10,000 AF to storage and, after storage losses, 50% of the water supplies would accrue to WDS CA II's account. Actual SWP conveyance Costs borne by PWD for delivering water exchanged for storage capacity to WDS CA II, at the point of delivery under this Agreement, including (if applicable) variable and off-aqueduct charges imposed on SWP water by the California Department of Water Resources ("DWR"), shall be paid by WDS CA II (amount determined prior to storage losses). WDS CA II shall pay a deposit of \$62,500.00 to PWD to cover its share of conveyance costs prior to commencement of delivery of water to

storage. Upon completion of delivery (based on actual water delivery quantities) the remaining balance of its proportionate share of the SWP conveyance costs shall be billed to WDS CA II. Payment of the remaining balance shall be made within 30 days of receipt of invoice.

- (c) Subject to the terms and conditions of all necessary regulatory approvals and this Agreement, commencing on the effective date of this Agreement, PWD may from time to time deliver water to WDS CA II. WDS CA II shall accept delivery of such water, on a schedule reasonably approved by WDS CA II not less than 7 days prior to the delivery of such water. However, WDS CA II shall not be obligated to accept any water from PWD to the extent WDS CA II does not have capacity to do so as determined by WDS CA II in its sole discretion. Upon delivery to WDS CA II, such water shall be stored or used within the receiving Point of Delivery (POD) State Water Contractor's service area as WDS CA II determines.
- (d) The point of delivery (POD) for water delivered to the Antelope Valley Water Bank (AVWB) will be the Antelope Valley East Kern Water Agency's ("AVEK") turnout at Reach 19 of the State Water Project ("SWP"). Water delivered to the Semitropic Stored Water Recovery Unit (SWRU), Semitropic's Reach 10A of the SWP.

#### 2. Return Water.

- (a) WDS CA II shall return to PWD an amount of water equal to the actual amount of water delivered by PWD to WDS CA II pursuant to Section 1 of this Agreement, minus 50% for storage capacity and a one-time storage loss (approximately 10-12% at AVWB and 10% at the SWRU), subject to the SRWBA Agreement ("Return Water").
- (b) The point of delivery of Return Water to PWD shall be Reach 10A (SRWU) and/or at Reach 19 (AVEK Turnout) on the California Aqueduct. Such return shall be accomplished by WDS CA II, transferring to PWD the applicable portion of its SWP water supply. PWD shall make all necessary arrangements to transport Return Water to its SWP turnout on the California Aqueduct from Reach 10A (SRWU) and/or Reach 19 (AVEK Turnout), and PWD shall pay all costs of conveying such water from Reach 10A (SRWU) and/or Reach 19 to PWD's turnout at Reach 20B.
- (c) Return Water shall be delivered by WDS CA II to PWD in any year on a schedule reasonably requested by PWD. If SWP supplies are inadequate to allow WDS CA II to make the return using SWP water, then WDS CA II will return water by pump-back means into the California Aqueduct. PWD shall pay the then-applicable energy costs to recover (pump-back) and convey water through Semitropic's system at the California Aqueduct Reach 10A and/or the West Feeder to the AVEK Turnout at the California Aqueduct (Reach 19)
- 3. <u>Term; Return Timing</u>. The term of this Agreement shall commence on the October X, 2011 and shall expire October X, 2021, unless renewed or extended under mutually agreeable terms and conditions. No water may be delivered by PWD to WDS CA II under this Agreement after the expiration of such term, and the parties shall use reasonable efforts to cause all Return

Water to be delivered to PWD during that term; provided, that if and to the extent PWD has timely requested Return Water and WDS CA II was unable to return same, then this Agreement shall be extended for any period necessary solely for the purpose of allowing PWD to receive any Return Water not returned within the original term or the parties shall negotiate a cash buyout of PWD's interest in the unreturned stored water on such terms as the parties shall agree, and PWD shall thereafter have no interest in such Stored Water.

- 4. Storage Fees. WDS CA II's lease with the SRWBA requires that it pay fees of to PUT (\$30/AF) and TAKE (\$30/AF) water into/out of storage in the SRWBA and a \$5.40/YR/AF Participation Fee for water in storage. WDS CA II will pay to the SRWBA, on behalf of PWD and upon delivery of PWD's supplies into storage, the PUT, TAKE and two years of Participation Fees for storage of PWD's water supplies, totaling approximately \$70.80/AF. PWD will pay the \$5.40/YR/AF Participation Fee for water remaining in storage under this Agreement after the second year and for each year thereafter, which Fee shall be subject to adjustment in accordance with the SRWBA Agreement.
- 5. Records. Accurate records of all water delivered to WDS CA II and all water returned by WDS CA II to PWD shall be maintained by WDS CA II and PWD. All such records maintained by either party shall be available to the other party upon reasonable notice. A joint annual reconciliation of accounts shall be performed by both parties on or before December 31<sup>st</sup> of each year that this Agreement is in effect.
- 6. Approvals. Each action contemplated by this Agreement is expressly conditioned on the receipt of any necessary governmental consent or approval for that action and compliance with any applicable environmental laws. PWD shall be responsible for obtaining any required approval from the Department of Water Resources (DWR) and shall bear all costs regarding the same. WDS CA II shall be responsible for obtaining any required approvals from Kern County Water Agency (KCWA) and AVEK, and shall bear all costs regarding the same. Any and all other approvals shall be obtained through the joint efforts of the parties and the costs associated therewith shall be shared equally between the parties. The parties shall exercise diligent and timely pursuit of all necessary transfer approvals.
- 7. CEQA. In compliance with the requirements of the CEQA, PWD has prepared a draft Programmatic Environmental Impact Report (SCH #10101091) on its 2010 Strategic Water Resources Plan. Within the draft PEIR PWD has determined that the actions contemplated by this Agreement are consistent with the Strategic Water Resources Plan. Accordingly, PWD will not undertake further CEQA review of this document unless it subsequently determines such review is required. If PWD subsequently determines additional CEQA review is required, then CEQA costs shall be

equally split by WDS CA II (50%) and PWD (50%) up to a maximum of \$10,000 contribution by WDS CA II. PWD to act as lead agency. PWD represents and warrants that this exchange is exempt under the California Environmental Quality Act and a Notice of Exemption will be filed by PWD with the State Clearinghouse and in Los Angeles and Kern Counties.

- 8. <u>Consultation</u>. WDS CA II and PWD acknowledge that the actions contemplated by this Agreement will require regular consultation and coordination. WDS CA II and PWD shall in good faith engage in all such consultation and coordination necessary or appropriate to facilitate the arrangements contemplated by this Agreement.
- 9. Additional Actions. WDS CA II and PWD shall take such further actions and in good faith negotiate such further agreements as may be necessary in order to permit or facilitate the actions contemplated by this Agreement.
- 10. Attorneys' Fees. In the event of any action between WDS CA II and PWD seeking enforcement or interpretation of any of the provisions of this Agreement, the prevailing party in such action shall be awarded, in addition to damages, its reasonable costs and expenses, including without limitation actual out-of-pocket costs and attorneys' fees. In the event a third party challenges this Agreement or any of the provisions hereof, whether judicially or otherwise, WDS CA II and PWD shall assist one another without cost in connection therewith by providing information and witnesses as reasonably requested.
- 11. Waiver. Any waiver of the provisions of this Agreement by the party entitled to the benefits thereof as to any instance must be in writing and shall in no event be deemed a waiver of the same provision with respect to any other instance or a waiver of any other provision of this Agreement.
- 12. <u>Notices</u>. All notices or other communications given under this Agreement shall be effective upon personal or confirmed facsimile delivery, or three days after deposit in the United States mail, registered or certified, postage prepaid and addressed to the parties as follows:

If to WDS CA II: (WDS California II, LLC)

5700 Wilshire Blvd., Suite 330

Los Angeles, CA 90036 Attention: Andrew Werner Telephone: (323) 936-9303 Facsimile: (323) 930-9114

If to PWD:

Palmdale Water District 2029 East Ave. Q Palmdale, CA 93550

Attention: Dennis LaMoreaux General Manager

Telephone: (661) 947-4111

Facsimile: (661) 947-8609

or to such other address(es) as either of the parties from time to time designate in writing. As a matter of convenience, however, communications between WDS CA II and PWD shall, to the extent feasible, be conducted orally by telephone or in person, with such communications to be confirmed and made effective in writing as set forth above. No oral notice or communication shall be effective unless so confirmed in writing.

- 13. <u>Suspension of Agreement</u>. Except as otherwise provided herein, all obligations of the parties under this Agreement shall be suspended so long as, and to the extent that, the performance thereof shall be prevented by earthquakes, fires, facility failures, floods, strikes, other casualties, acts of God, orders of court or governmental agencies having jurisdiction over the subject matter of this Agreement or other events or causes beyond the control of the parties. Neither party shall be deemed to have breached this Agreement if, despite that party's reasonable efforts, performance under this Agreement becomes impossible or impractical due to the action (or inaction) of a third party or for other reasons outside that party's control.
- 14. <u>Binding Effect</u>. This Agreement is intended to be and shall be binding upon and enforceable against each of the parties hereto. This Agreement shall be governed by and construed in accordance with the laws of the State of California and may be signed in any number of counterparts.
- 15. Entire Agreement. This Agreement contains the entire Agreement of the parties with respect to the subject matter hereof, and supersedes all prior Agreements and negotiations with respect thereto (whether verbal, written or otherwise), all of which are of no force or effect. This Agreement may not be modified or amended except in a writing executed by both parties.
- 17. No Precedent/Affect of Agreement. This Agreement shall not be precedent for any future agreement for other agreements either party may enter into in the future. The parties agree that this Agreement is for a voluntary exchange of water that would otherwise be beneficially used by the exchanging party in order to achieve a more efficient use thereof, consistent with the provisions of Water Code Sections 475 and 1244.

IN WITNESS WHEREOF, the parties have executed this Agreement as of the date first above written.

## PALMDALE WATER DISTRICT BOARD MEMORANDUM

**DATE**: October 19, 2011 **October 26, 2011** 

TO: BOARD OF DIRECTORS Board Meeting

**FROM:** Mr. Matthew Knudson, Engineering Manager

Mr. Tim Moore, Facilities Manager

VIA: Mr. Dennis D. LaMoreaux, General Manager

RE: AGENDA ITEM NO. 7.2- PRESENTATION ON REPAIRS OF WATER

MAINS AND UPDATE ON WATER MAIN REPLACEMENT PROJECTS.

A Board memo and supporting documents for this item will be hand-delivered next week.

## MINUTES OF MEETING OF THE WATER SUPPLY & RELIABILITY COMMITTEE OF THE PALMDALE WATER DISTRICT, SEPTEMBER 13, 2011:

A meeting of the Water Supply & Reliability Committee of the Palmdale Water District was held Tuesday, September 13, 2011, at 2029 East Avenue Q, Palmdale, California, in the Board Room of the District office. Chair Dexter called the meeting to order.

#### 1) Roll Call.

Attendance:

**Others Present:** 

Water Supply & Reliability Cmte:

Dennis LaMoreaux, General Manager

Gordon Dexter, Chair

Jon Pernula, Water & Energy Resources Mngr.

Jeff Storm, Committee

Dawn Deans, Executive Assistant

Member

0 members of the public

#### 2) Adoption of Agenda.

It was moved by Committee Member Storm, seconded by Chair Dexter, and unanimously carried to adopt the agenda, as written.

#### 3) Public Comments.

There were no public comments.

#### 4) Action Items:

## 4.1) Consideration and Possible Action on Approval of Minutes of Meeting Held August 9, 2011.

It was moved by Committee Member Storm, seconded by Chair Dexter, and unanimously carried to approve the minutes of the meeting held August 9, 2011, as written.

## 4.2) Presentation of Monthly Water Demand and Supply Status. (Water & Energy Resources Manager Pernula)

Water & Energy Resources Manager Pernula reviewed the water demand graphs and charts included with the agenda packet and then informed the Committee that production is curving downwards, production and consumption are under the five-year average, water sales were close to projections for August, water use is trending towards

the 60/40 surface water/groundwater split, and there is water available for banking from State Water Project reserves.

4.3) Status Report on Water Treatment and Transportation Agreement Between Palmdale Water District and Antelope Valley East Kern Water Agency – Acton Water Treatment Plant. (Engineering Manager Knudson)

General Manager LaMoreaux informed the Committee that the Antelope Valley East Kern Water Agency has issued a negative declaration for the work under this Agreement and that the conceptual plan and layout is expected to be submitted for District approval within the next few weeks.

4.4) Status Report on Natural Solutions, Inc. Soil Bio-Remediation Pilot Program With Antelope Valley Union High School District. (General Manager LaMoreaux)

General Manager LaMoreaux informed the Committee that he met with representatives from the Antelope Valley Union High School District regarding the use of Natural Solutions products on Knight Field to help reduce water use; that the previous Natural Solutions pilot project was not working due to poor coordination; that it was determined to aerate Knight Field four times per year with soil amendments added each time; and that Natural Solutions and Antelope Valley Union School District representatives will now coordinate directly on the pilot project with the District's only role being to cover minimal bills from Natural Solutions.

It was then discussed that it may take as long as a year to see any benefit from this pilot project.

#### 5) Project Updates.

5.1) Recycled Water Master Plan. (Water & Energy Resources Manager Pernula)

Water & Energy Resources Manager Pernula stated that there are no updates to report on this item.

## 5.2) Strategic Water Resources Plan. (Water & Energy Resources Manager Pernula)

Water & Energy Resources Manager Pernula stated that the Programmatic Environmental Impact Report for the Strategic Water Resources Plan is now in its 45-day public review period; that a public meeting was held at the District on August 31 with no members of the public attending; and that, to date, no public comments have been received.

## 5.3) Water Purchase Opportunities. (Water & Energy Resources Manager Pernula)

Water & Energy Resources Manager Pernula stated that he is meeting with Butte County this month and is working on development of other water purchase opportunities.

## 5.4) Garden Bar Water Supply and Power Project. (Water & Energy Resources Manager Pernula)

Water & Energy Resources Manager Pernula stated that a conference call was held this morning regarding this Project; that Castaic Lake Water Agency announced they will no longer participate in this Project; that the current Memorandum of Understanding and costs on the Reconnaissance Study are being completed; that additional tasks include water rights applications and development of a new Memorandum of Understanding; that this project is currently on hold as a northern California partner for the project is pursued; and that the District's decision on whether or not to continue its participation in this Project will need to be discussed.

#### 6) Information Items.

General Manager LaMoreaux informed the Committee that a shift was made today towards more groundwater production and less surface water use; that this shift will be made gradually to avoid any shocks to the system; and that this shift will be made prior to the start of construction on the 9th Street water main replacement project.

Committee Member Storm inquired about Palmdale Lake turbidity resulting from the recent storm after which General Manager LaMoreaux informed the Committee that no sediment entered Palmdale Lake, and the Lake is fine; that the diversion ditch worked as designed catching sediments up to three feet in places with some water going through the spillways for the ditch; but that the Water Treatment Plant itself experienced water running through the buildings, staff is currently assessing any damage and making repairs, and a full report on this incident will be included with the monthly Department Status Report.

There were no further additional information items to discuss.

7) Public Comments on Closed Session Agenda Matters.

There were no public comments on closed session agenda matters.

8) Closed Session Under Government Code Section 54956.8 - Conference With Real Property Negotiator:

Subject: Water Storage Rights

Property Negotiator: Dennis LaMoreaux, Jon Pernula

Negotiating Party: Homer, LLC

Under Negotiations: Price and Terms.

At 5:38 p.m., Chair Dexter called for a closed session pursuant to Government Code Section 54956.8 – Conference With Real Property Negotiator - Subject: Water Storage Rights; Property Negotiator: Dennis LaMoreaux, Jon Pernula; Negotiating Party: Homer, LLC; Under Negotiations: Price and Terms. He reconvened the Committee meeting at 5:48 p.m.

9) Public Report of Any Action Taken in Closed Session.

Chair Dexter reported that a closed session had been held under Government Code Section 54956.8 – Conference With Real Property Negotiator - Subject: Water Storage Rights; Property Negotiator: Dennis LaMoreaux, Jon Pernula; Negotiating Party: Homer, LLC; Under Negotiations: Price and Terms and that no action reportable under the Brown Act was taken in closed session on this matter.

10) Board Members' Requests for Future Agenda Items.

There were no requests for future agenda items.

The next Water Supply & Reliability Committee meeting will be held October 11, 2011 at  $5:15~\mathrm{p.m.}$ 

#### 11) Adjournment.

There being no further business to come before the Water Supply Committee, the meeting was adjourned.

Chair

MINUTES OF REGULAR MEETING OF THE COMMISSIONERS OF THE ANTELOPE VALLEY STATE WATER CONTRACTORS ASSOCIATION, **SEPTEMBER 15, 2011.** 

A regular meeting of the Commissioners of the Antelope Valley State Water Contractors Association was held Thursday, September 15, 2011, at the Palmdale Water District at 2029 East Avenue Q, Palmdale. Chair Godin called the meeting to order.

#### 1) Pledge of Allegiance.

At the request of Chair Godin, Commissioner Thibault led the pledge of allegiance.

#### 2) Roll Call.

#### Attendance:

Linda Godin, Chair Andy Rutledge, Secretary George Lane, Commissioner Barbara Hogan, Commissioner

#### Others Present:

Tom Barnes, Controller Brad Bones, LCID General Manager Leo Thibault, Treasurer-Auditor Dave Rizzo, AVEK Alt. Commissioner Dawn Deans, Executive Assistant 2 members of the public

Gordon Dexter, Vice Chair --**EXCUSED ABSENCE** 

#### 3) Public Comments for Items Not on the Agenda.

There were no public comments.

#### 4) Approval of Minutes of Regular Meeting Held August 18, 2011.

It was moved by Commissioner Rutledge, seconded by Commissioner Hogan, and unanimously carried to approve the minutes of the regular meeting held August 18, 2011, as written.

#### 5) Payment of Bills.

Commissioner Thibault reviewed the bills received for payment and then moved to pay the bills received from PWD in the amount of \$786.54 for staff services; AVEK in the amounts of \$1,128.75 and \$677.25 for staff services; and IES in the

amount of \$976.50 for the design and development of the web site. The motion was seconded by Commissioner Rutledge and unanimously carried.

6) Consideration and Possible Action on Separate Bank Accounts for Grant Funds. (Interim General Manager Knudson)

After a brief discussion of creating separate bank accounts for grant funds managed by the Association and the agreement for the Association managing these funds, it was moved by Commissioner Thibault, seconded by Commissioner Hogan, and unanimously carried to authorize staff to establish separate accounts for management of grant funds provided there is no agreement to prevent the creation of separate accounts and Interim General Manager Knudson provide a report at the next meeting on the Association's agreement for managing grant funds.

- 7) Consideration and Possible Action on Agency Interest in Funding a Feasibility Study for Development of a Joint Recharge/Water Banking Project on the East Side of the Antelope Valley. (Interim General Manager Knudson)
- 8) Report of Interim General Manager.
- a) Status Report on Regional Control of Water From the State Water Project.

Controller Barnes stated that a meeting will be scheduled with Association staff and the member agencies' General Managers to discuss the Association's approach with the Department of Water Resources regarding point of delivery agreements and regional control of water from the State Water Project as the first step towards joint water banking projects; that joint recharge projects will be easier once this is established; and that an update will be provided at the next meeting.

Commissioner Lane then recommended the Commissioners discuss this concept with their respective Boards.

Commissioner Thibault stated that LCID is anxious to move forward with this concept and Attorney Lemieux has indicated he can help this more forward, and after a brief discussion, it was determined that Association staff and the member agencies' General Manager's meet as proposed by Controller Barnes; that Attorney Lemieux then be contacted for assistance in moving forward with this concept; and that Attorney Lemieux attend the next Association meeting to provide input on this concept.

It was then determined that Agenda Item No.'s 7 and 8a be combined for future meetings.

#### 8) Report of Interim General Manager.

#### b) Status Report on Prop. 84 Planning Grant Funding for IRWMP.

Controller Barnes stated that the IRWMP plan must be updated every two years; that the region has been awarded grant funding for this work; and that staff anticipates receipt of the commitment letter and funding agreement for the Association's management of these funds for consideration by the Commissioners at the next regular meeting.

#### Report of Controller.

#### a) Status Report on the AVSWCA Website.

Controller Barnes reported that staff is working with IES to develop the Association's website; that a mock-up will be presented for the Commissioner's review and comment at the next meeting; and then requested input from the Commissioners on design concepts.

#### 10) Reports of Commissioners.

Commissioner Thibault reported that he read the recent water purveyor's ads in the Antelope Valley Press and their point is difficult to figure out; that the A.V. Press reporter did a good job on the recent article about the Association's recharge efforts but his concern is for the Commissioners to remain vague on specific sites for these types of projects; and then thanked AVEK for their booth at the Antelope Valley Fair, and he appreciates their mention of all agencies followed by discussion of the booth's location and the public relations aspect of the booth.

There were no further reports of Commissioners.

#### 11) Commission Members' Requests for Future Agenda Items.

Commissioner Lane requested an item be placed on the next agenda for a status update on scheduling a tour of Sanitation District facilities after which Controller Barnes informed the Commissioners that the Sanitation Districts will provide tours to outside agencies after their Directors have toured the facilities.

Chair Godin stated that "Consideration and possible action on regional control of water from the State Water Project and agency interest in funding a feasibility study for development of a joint recharge/water banking project on the east side of the Antelope Valley" and "Status report on separate bank accounts for grant funds and the Association's agreement for managing grant funds" and "Status report on Prop. 84 Planning Grant Funding for IRWMP and public relations aspects for grant funding" and "Status report on the AVSWCA web site" will be placed on the next agenda for consideration.

There were no further requests for future agenda items.

## 12) Consideration and Possible Action on Scheduling the Next Association Meeting.

It was determined that the next regular meeting of the Association will tentatively be held October 13, 2011 at 6:30 p.m. at PWD subject to receipt of the commitment letter and funding agreement for the IRWMP planning grant funding.

#### 13) Adjournment.

There being no further business to come before the Commissioners, the regular meeting of the Commissioners of the Antelope Valley State Water Contractors Association was adjourned.

# PALMDALE WATER DISTRICT BOARD MEMORANDUM

DATE:

October 19, 2011

October 24, 2011

TO:

FINANCE COMMITTEE

**Finance Committee Meeting** 

FROM:

Mr. Bob Egan, Financial Advisor

RE:

AGENDA ITEM NO. 4.2 - DISCUSSION OF STATUS REPORT ON CASH REPORT AT September 31, 2011 AND CASH FLOW REPORT

THROUGH DECEMBER 31, 2011 and 2012

Attached are a cash report and pie chart for September 30, 2011 and a cash flow report for the period of December, 2010 through December, 2011 and 2012. It is necessary to focus on 2012 now as part of the budget process.

#### Several items of note:

August water sales were comparable to last August. September through December water sale projections have been decreased based on the trends to date. Projected ending cash is just over \$7 million.

Please note that \$1.7 million of District cash is restricted as a one year reserve for the 1998 bonds. It is not available for operations. Operating cash at September 30 is \$4.61 million, the first time this number has fallen below \$5 million in decades. A covenant of the 1998 bond issue is a district pledge to keep \$5 million in reserve for self insurance on the Littlerock Dam. Since opreating funds have always been above that number the District has technically been in compliance.

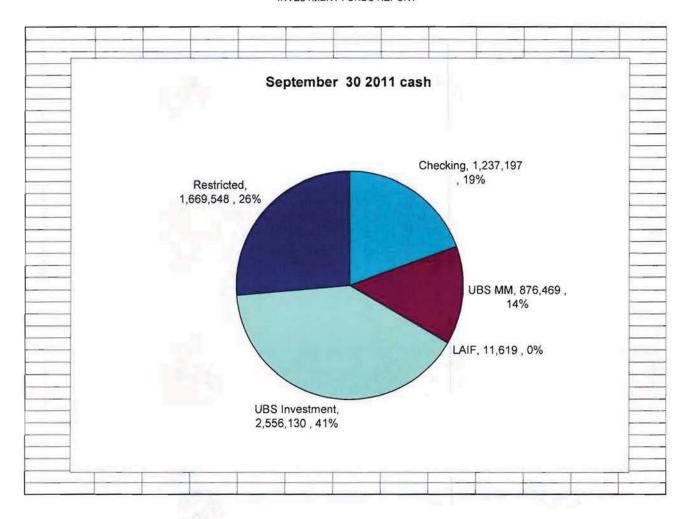

In September we received \$312,065 related to the Palmdale Redevelopment Agency. This is less than last years \$445,000 but more than many prior years. This amount and its receipt is an unknown until received. Also, the AVEK expected amount of \$686,848 was received last month.

The cash flow through December, 2011 projects operating expenses and operating revenues at a near break-even. The original 2011 cash flow report expected operating revenues to exceed operating expenses by over \$2 million, similar to 2010. Annually the District must pay \$3.6 million in bond interest and principal. This must be covered by operations as it is in any business. This can be accomplished going forward by a combination of rate increases and cuts in operating expenses or cash will be virtually depleted. This is evidenced by the 2012 and 2013 projections previously presented to the Committee.

## PALMDALE WATER DISTRICT

#### BOARD MEMORANDUM

DATE:

October 19, 2011

October 19, 2011

TO:

Finance Committee

Committee Meeting

FROM:

Michael Williams, Finance Manager/CFO

VIA:

Mr. Dennis LaMoreaux, General Manager

RE:

AGENDA ITEM NO. 4.3 - STATUS REPORT ON FINANCIAL STATEMENTS

AND DEPARTMENTAL BUDGET REPORTS FOR SEPTEMBER, 2011

#### Discussion:

Presented here are Balance Sheet and Profit/Loss Statement for the period ending September 30, 2011. Also included are Year-To-Year Comparisons and Month-To-Month Revenue Analysis and Expense Analysis for the month of September. Finally, I have provided individual departmental budget reports through the month of September, 2011.

With nine months of the budget year complete, percentages should be at or below 75%. I have reviewed the statements and highlighted areas/items for discussion.

#### Profit/Loss Statement:

- Our operating revenue is at 70% of budget and operating expense is at 64.5% of budget. Review of strictly cash operations, our revenue exceeds expenditures by \$2.3 million. (YTD \$16,375,404-\$14,041,448)
- Administration Department will end the year over budget due to the groundwater adjudication.
- Water purchases and water recovery continue to be outside projections due to continued adjustments in invoicing by the state.
- Capital Improvement Fees are approximately \$1 million over budget due to unexpected projects.

#### Year-To-Year Comparison P&L:

- Total operating revenue is up by 1.3%, or \$30,500, due mainly to increased collection activity.
- Operating expenditures are down by 57%, or \$1.6 million, due mainly to water purchases and departmental operations.
- Page 8 of water consumption graphs show units billed were down 6.7%, and the number of active connections are up by 1%.
- Page 8 of water consumption graphs shows total revenue per unit is up 8.7%, and total revenue per connection is up .3%.

#### Revenue Analysis Year-To-Date:

- Operating Revenue is up by 1.3%, or \$214,500, with YTD water sales ahead by \$56,000.
- Total revenue is down by 1.2%, or \$260,000, which is the result of this year's capital improvement fees offsetting last year's property sales.

#### **Expense Analysis Year-To-Date:**

• Cash operating expenses are down 35%, or \$4.9 million, and total expenses are down 16%, or \$3.7 million. This is due primarily to departmental operations and adjustments to invoicing by the state related to the State Water Project.

#### Departments:

 Pages 14 through 22 are detailed budgets of each department. There is nothing significant to point out except the groundwater adjudication line item in Administration Department. Most departments are operating at or below the nine month target for the year.

#### Non-Cash Definitions

**Depreciation:** This is the spreading of the total expense of a capital asset over the expected life of that asset.

OPEB Accrual Expense: Other Post Employment Benefits (OPEB) is the recognized annual required contribution to the benefit. The amount is actuarially determined in accordance with the parameters of GASB 45. The amount represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year.

Bad Debt: The uncollectible accounts receivable that has been written off.

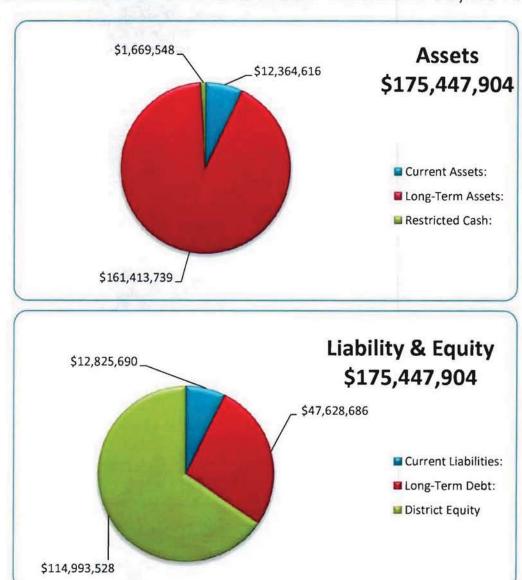

Service Cost Construction: The value of material, parts & supplies from inventory used to construct, repair and maintain our asset infrastructure.

Capitalized Construction: The value of our labor force used to construct our asset infrastructure.

AGENDA ITEM NO. 8.2

## PALMDALE WATER DISTRICT DEPARTMENT STATUS REPORT September 2011

**DATE:** October 20, 2011

**TO:** BOARD OF DIRECTORS

**FROM:** Dennis D. LaMoreaux, General Manager

#### **OPERATIONS**

#### **Peter Thompson II, Operations Manager**

- Staff completed an in-house rebuild of a Waste Wash Water Return Pump.
- Staff engaged in over 200 hours of clean up and repair work in the wake of the flash flood that occurred at the treatment plant on September 10, 2011.
- Staff is testing adjusted operational settings for the 3900 tank. If successful, then these new settings will allow for the initiation of rehab work on that tank.
- The lab passed its inspection by the California Department of Public Health.
- The total production for September was 2113 Acre Feet. 51% was from surface water, and 49% was from groundwater. Of the surface water, 43% came from the State Water Project, and 57% came from Littlerock Reservoir. September 2011's production was down by 5.5% compared to August 2010's and is a 12.6% reduction when compared to the five year average for September.

#### **HUMAN RESOURCES**

#### Jeannie Burns, Human Resources Manager

Coordinated recruitment process for Service Worker position in the Facilities Department. Recruitment for this position is due to an internal promotion that leaves this vacancy. Reviewed 53 applications and/or resumes and forwarded to Facilities Department management for the selection process. There were 353 hits to the District's employment section of the website. Selection of qualified candidates will be determined in the next couple of weeks.

- Facilitated Communications, Safety, and Safety Sub-Committee meetings. The focus of the Safety Committee was Heat Illness Prevention; the Safety Sub-Committee focused on confirming updated trainings: Confined Space, Rigging, Defensive Driving, AED, Trench & Shoring, and completion of the annual Business Plans. The Communications Committee focused on the final development and presentations to staff. Presentations are scheduled for all departments. The Employee Communications Plan will be distributed to all employees at these presentations.
- Worked with the American Red Cross and Cardiac Science to secure five Automated External Defibrillators for the District. Staff will be trained by the American Red Cross in terms of using them in emergent situations.
- Participated in the NeoGov Users Meeting focusing on additional enhancements to the NeoGov Performance Evaluation process. Each participant had an opportunity to present issues or concerns relative to the use of the Performance Evaluation system.
- Participated in the Emergency Response Team meeting with a focus on the role of team leaders and reporting of the Train the Trainer training. A Table Top exercise is scheduled for October 5, 2011. This exercise will also involve other groups experienced in emergency response planning and procedures.

#### **ENGINEERING**

#### Matt Knudson, Engineering Manager

- Littlerock Dam Sediment Removal: The District is scheduled to meet with United States Forest Service (USFS) staff and the District's environmental consultant (Aspen Environmental Group) in late October, 2011 to work towards finalizing the MOU/Agreement between the District and USFS. The District submitted said MOU to USFS several months ago, and we are trying to push them to finalize said MOU/Agreement. The MOU/Agreement will outline the responsibilities for both parties and also offers financial assistance from the District to help fund staffing from the USFS in order to keep this project moving forward.
- Specification No. 0903 9<sup>th</sup> Street East and 12<sup>th</sup> Street East Water Main Replacement Status: The contractor is scheduled to mobilize and start construction activity the week of October 24, 2011.

- 3600' Booster Station Hydro-Pneumatic Tank Status: The District continues to work on getting information proposals for a new hydro-pneumatic tank and is also looking into a location and design of a temporary storage tank that will allow us to take the hydro tank offline while the new hydro tank is installed.
- Inter-tie with AVEK (Acton WTP) Status: AVEK has submitted the preliminary design for PWD review, filed the Notice of Determination to comply with CEQA, and made the initial 50% payment towards the Capital Improvement Fee. PWD staff is scheduled to meet with AVEK and their design consultant in late October, 2011 to review and comment on the design. This project continues to make progress, and AVEK is scheduled to advertise the construction of this project by the end of this year.
- Localized GAC Treatment Underground Booster Station Status: The Facilities Committee authorized staff to advertise for equipment procurement for this project, and the District will open bids for the proposed GAC Vessel in mid-November, 2012. Staff will present the proposals to the full Board for consideration in the near future.

#### **FACILITIES**

#### **Tim Moore, Facilities Manager**

- The Construction Crew repaired (63) mainline leaks and installed (8) ¾" & (3) 1" residential services lines.
- The Construction Crew started construction on the mainline replacement at 40<sup>th</sup> Street East and Avenue S-10 replacing 6" and 2" double dipped and wrapped steel main that was installed in 1957 and has had numerous leaks; installing 1,300 feet of 6" ductile iron pipe, (6) services, (1) fire hydrant, and (1) air-vac.
- The ongoing Valve Exercise Program, along with the Water Quality Flushing Program, is producing good chlorine residuals and low turbidity numbers in the field with the Air-Vac Maintenance Program achieving better function in our distribution system.
- Completed (8) pump and motor PM's (preventive maintenance) at well sites.
- The mechanics completed (28) vehicle repairs, (12) truck and trailer repairs, and (3) crane inspections and repairs.
- The Mechanics replaced a failed engine cooling water pump at Well 15 and replaced an HVAC system compressor (facilities building backyard).

#### **INFORMATION TECHNOLOGY**

#### Jim Stanton, Information Technology Manager

The new web site continues to be at the top of my Top 5. In the month of September, we saw 6,801 visits. Of those, 5,234 were unique, first time, visitors; that equals approximately 50% of our visits being made by first time visitors. Statistically, this remains unchanged from last month. Over time, we expect to see those numbers reverse and see more returning visitors than new.

PWD customers stayed on the web site for an average of 1 minute 28 seconds before finding the information they needed, and they were able to access that information in an average of 1.99 page views. This data is consistent with the numbers we saw for July and August. Approximately 38% of that traffic is direct, a user has a favorite or enters the address in their browser, approximately 58% is referred by search engines, and approximately 4% is sent by other sites. Again, these numbers remain almost unchanged from July and August.

In the August Referring Sites page, Information Technology and Water Conservation observed a marked decrease in the number of people referred by avpress.com. Information Technology, working with Water Conservation, reinstated the AV Hot Site and Banner advertisements in the AV Press newspaper and on the avpress.com web site. This resulted in an increased number of referrals - 25 for August versus 49 for September, an increase of approximately 100%. This increase is directly attributed to the AV Hot Site and Banner advertisements. Detailed reports are attached.

- Network Infrastructure Upgrade Project VPN testing was completed. IT Staff continue working with our vendor to replace the remaining infrastructure equipment. This project will continue through November.
- Telephone Project Staff is working with the vendor on obtaining data for the implementation of the telephone project. Anticipate this project to continue through December.
- Cogsdale Staff continues to work with Cogsdale support personnel on several support issues. Anticipate testing of CSM 2010 to continue through the near future.
- Email Statistics The email filter reported processing 50,121 emails for the month of September. Out of that total, only 11,631 were processed and sent on to users (both internal and external) or only approximately 23% of all email was sent on.

## WATER CONSERVATION Claudette Roberts, Water Conservation Supervisor

Monthly Number of Customers Applying for Rebates:

REBATES 2011		NUMB	ER PER	MONTH	1								2011	2011 <b>Paid</b>	2010- 2011

- Water News/Press Releases/Employee Newsletter: The last Water News for this year went out in October. We have only been producing six issues per year for the last two years. We do send out the employee newsletter each month.
- Tours and presentations to schools: School has started, and PWD's school education program has been sent out to all the schools in the Palmdale School District. The educational program outlines tours, presentations and contests for the 2011/2012 school year.

The Conservation Department coordinates with other departments for additional public tours when there is a special occasion. These types of tours do not usually include school age children, and the District does not pay for transportation to the treatment plant unless otherwise decided and approved by the Board of Directors.

- **Events:** No events are scheduled until the first of the year
- Water Use Calculations: The Conservation Department has been inputting water use data on all rebate customers in order to analyze water use savings per customer per year, and total water use savings per rebate per year. Each customer has a water use sheet, and all data for each customer is then logged into an excel data base for analyzing water savings.

## **FINANCE/CUSTOMER SERVICE Michael Williams, Finance Manager**

#### **Finance:**

- Completed the advertising and processing of unclaimed funds for 2011.
- Completed the balancing of Customer Refund Account and Accrued Purchases through August. Construction in Progress Account and Accounts Payable through June.
- Completed Inventory counts and reconciliation through 2<sup>nd</sup> Qtr.

- Began the transition to the new MyCalPERS web site for payroll reporting. There are continued issues with the web site and the ability to process.
- Continued work on the 2012 budget.
- Continued calculating and posting to customer accounts refund credits for tier adjustments. We have now completed June 2009 through December 2009. Totals through that period:

<b>Totals</b>	<b>Bills</b>	Refund
SFR	42,677	\$122,569.24
<b>MFR</b>	333	\$3,109.77
IRR	435	\$48,062.54
	43,445	\$173,741.55

#### **Customer Service:**

- EBPP statistics as of 09/30/11: 7,128 registered, 2,519 or 35% paperless, and 736 or 10% Autopay.
- Processed 61 Leak Adjustment Applications with 14 applications denied.
- Issued 1,981 door tags and 211 Shut-Off notices. Processed 24,975 payments, 299 applications for service. Handled 4,982 customers over the phone and 6,184 at the counter.
- Replaced 62 Itron's, 77 Itron's/Register combinations, and 19 Registers only. Also replaced 90 stuck meters. Processed 1,157 Service Orders.
- Consecutive zero read commercial and multi-family accounts review discovered two commercial locations in which meters were not working properly. Meters have been repaired, and customers are being billed for non-working months based on estimates.
