ASK YOUR WATER QUESTIONS AT VIRTUAL COFFEE WITH DIRECTOR WILSON ON APRIL 27

Palmdale, CA – Palmdale Water District (PWD) Board Director Don

Wilson will be featured at this month's Virtual Coffee with a Director on Facebook Live. The event will be on PWD's Facebook page, @palmdaleh2o, from 9-9:30 a.m. on Tuesday, April 27.

The public is invited to join the livestream event to get to know Director Wilson and ask water-related questions. Written questions can be submitted as Facebook messages before or during the virtual event.

“With the pandemic, it has been impossible for me to meet my constituents and hear their questions and concerns,” Director Wilson said. “I do miss the face-to-face interaction. For now, these virtual events are the next best thing. I encourage our customers to join us.”

During the event, attendees will learn about Director Wilson's background, interest in water and goals for PWD. There also will be

(more)

information and discussion about water-saving programs offered by PWD and steps on how to use water more efficiently year-round.

Director Wilson, who represents Division 2, has lived in Palmdale since 1987. He retired as a retail sales rep in 2016 after 28 years with Foster Farms and has experience in restaurant and hotel management. He served on the Palmdale School District Personnel Committee Board for two years and was elected to the PWD Board in November 2018. His term will expire in 2022.

Division 2 is an area whose northern most point is a small section that borders Palmdale Boulevard. The Division roughly lies south and west of central Palmdale, more specifically, south of Palmdale Blvd and Avenue R west of 25th Street East and south of Pearblossom Highway east of 25th Street East. Division 2 also includes portions of the community of Juniper Hills.

Since 1918, the Palmdale Water District has provided high-quality water at a reasonable cost. We pride ourselves on providing great customer care; advocating for local water issues that help our residents; educating the community on water-use efficiency; and leading our region in researching and implementing emerging technologies that increase operational efficiency. For more information about PWD, visit www.palmdalewater.org.
