PALMDALE WATER DISTRICT BOARD MEMORANDUM

DATE:	April 18, 2023	April 24, 2023
TO:	BOARD OF DIRECTORS	Board Meeting
FROM:	Mr. Dennis D. LaMoreaux, General Manager	
RE:	AGENDA ITEM NO. 7.1 – DISCUSSION AND PO MEMORIALIZING DR. BILL MATHIS OF THE M HIS CONTRIBUTIONS TO THE DISTRICT. DETERMINED – NON-BUDGETED – DIRECTOR	ATHIS GROUP FOR (AMOUNT TO BE

In honor of the late Dr. Bill Mathis, of the Mathis Group, and his years of contributions to the Board and the District, Director Dino has requested a discussion about memorializing Dr. Bill Mathis.

PALMDALE WATER DISTRICT

BOARD MEMORANDUM

DATE:	April 18, 2023	April 24, 2023
то:	BOARD OF DIRECTORS	Board Meeting
FROM:	Mr. Dennis D. LaMoreaux, General Manager	
RE:	AGENDA ITEM NO. 7.2 – CONSIDERATION AND TO AUTHORIZE STAFF TO SUBMIT AN APP TO JOIN THE LOS ANGELES HIGH D COLLABORATIVE (LA HRTC) AND PART COMMUNITY ECONOMIC RESILIENCE FUND (NO BUDGET IMPACT – DIRECTOR MAC LARE)	LICATION PACKAGE ROAD TRANSITION FICIPATE IN THE (CERF) PROGRAM.

Recommendation:

Staff recommends the Board authorize staff to submit an application package to join the Los Angeles High Road Transition Collaborative (LA HRTC) and participate in the Community Economic Resilience Fund (CERF) Program per the request of Director Mac Laren-Gomez.

Alternative Options:

The alternative is to not submit an application package to join the LA HRTC for participation in the CERF Program.

Impact of Taking No Action:

The District will not be incorporated in the LA HRTC or be eligible for potential CERF program funding.

Background:

The CERF program was created by the State of California to help local regions develop regional economic development plans. AV EDGE is working with the LA Economic Development Corporation to recruit community partners to organize as a region to sign up with the Los Angeles High Road Transition Collaborative (LA HRTC) to pursue regional funding from CERF.

Strategic Plan Element:

This work is part of Strategic Initiative No. 2 – Organizational Excellence, Strategic Initiative No. 4 – Financial Health and Stability, and Strategic Initiative No. 5 – Regional Leadership.

Budget:

This item has no budget impact and may provide potential project funding.

- AV Edge CERF Request Letter
- CERF Fact Sheet
- October 1, 2022 Los Angeles County Economic Development Press Release: Los Angeles Coalition Awarded Phase 1 Funds for CERF Process
- L.A. County CERF Onboarding Form

Dear Antelope Valley Community Leaders,

The State of California has begun the process of awarding \$500 million in project based economic development funds through the Community Economic Relief Fund (CERF). The funds are awarded by region, with Kern and Los Angeles Counties in separate regions.

In LA County, AV EDGE is working with the LA Economic Development Corporation to recruit community partners for to pursue funding from the Community Economic Relief Fund (CERF) from the State of California. CERF provides \$500 million for community economic development projects but before we can apply for the funds, we must organize as a region and sign up with the Los Angeles coordinating committee or High Road Transition Collaborative (LA HRTC).

The LA HRTC is divided up by region within LA County, and our region, SPA 1, is Palmdale, Lancaster and the LA portions of the Antelope Valley. It's urgent we get as many organizations in the community to sign up with LA EDC to ensure our region is adequately and properly represented. Any and all organizations should sign up, nonprofits, small and large businesses, corporate interests, local government including school, water and special districts. In short, if you're part of any organization in the AV, they should sign up!

You can learn more about CERF here: CERF Fact Sheet

To sign up with the LA HRTC, please follow this link: <u>L.A. County CERF Onboarding</u> <u>Form (smartsheet.com)</u> Signing up doesn't obligate you or your organization to financial or any other commitments, it just ensures that you'll have a voice at the table as we move forward. If you or your organizations have any questions about this, you can reach out to Charles Johnson with the LAEDC at **charles.johnson@laedc.org**

For Kern County, B3K is coordinating CERF efforts and it's just as important we have both AV county's organizations involved. To find out more or get involved with Kern County CERF efforts, please reach out to JP Lake at B3K at **info@b3kprosperity.org**

We'll be following up with phone calls to discuss this further to ensure the Antelope Valley is part of this process. Thank you very much for your participation.

Drew Mercy, Executive Director

COMMUNITY ECONOMIC RESILIENCE FUND (CERF)

CERF Goals & Objectives :

The CERF program was created by the State of California to help local regions develop regional economic development plans. In Los Angeles County, CERF will help local stakeholders to:

- Create high-quality and accessible jobs for all Californians
- Help local communities to transition and thrive in a carbon-neutral economy
- Invest in COVID-19 recovery and build long-term economic resiliency
- Integrate the priorities of local residents in the region's 10-year plan

The program seeks to develop and promote plans and strategies to identify highquality, good-paying jobs in eco-friendly industries to increase the opportunities and quality of life of disadvantaged communities.

CERF will also support businesses that invest in their workforces, pay living wages, and engage in environmentally sustainable business practices.

Why CERF is Important :

CERF is a one-of-a kind effort that calls for equity and inclusion in economic planning.

The CERF program will:

- Uplift under-voiced community needs to ensure they are included in Los Angeles County's 10-year Regional Economic Recovery Plans
- Ensure disinvested community members can access job and economic opportunities in high growth sectors
- In this process, CERF will map and support local community readiness to transition toward a carbon-neutral tomorrow and outline ways you can participate and benefit

Why You Should Get Involved :

Through this historic initiative, organizations and community stakeholders will get a seat at the table within our Los Angeles High Road Transition Collaborative (L.A. HRTC) to join the conversation and help design the blueprint that will be the future of the Los Angeles County region.

- Be at the forefront of helping community members attain high quality green jobs by identifying and funding projects, pipelines and regional strategies
- Help create a more equitable region while working collaboratively with other community partners

BLOG & MEDIA COVERAGE

A Home / Blog/News / Press Release: Los Angeles Coalition Awarded Phase 1 Funds for CERF Process

PRESS RELEASE: LOS ANGELES COALITION AWARDED PHASE 1 FUNDS FOR CERF PROCESS

POSTED OCTOBER 20, 2022

Los Angeles Coalition of over 200 Organizations and Stakeholders Awarded Phase 1 Funds for CERF Process

Coalition Will Prioritize Accessible, High-Quality Jobs in Sustainable Industries

October 20, 2022 – Today, the Governor's Office of Planning and Research announced the recipients of Phase 1 funds for the Community Economic Resilience Fund (CERF). A coalition of more than 200 partner organizations and regional stakeholders throughout the Los Angeles County area will now begin the planning process to build a roadmap for resilient and equitable economic growth for our region.

CERF was created to promote a sustainable and equitable recovery from the economic distress of COVID-19 by supporting new plans and strategies to diversify local economies and develop sustainable industries that create high-quality, broadly accessible jobs for all Californians.

The purpose of CERF is to:

Build an equitable and sustainable economy across California's diverse regions and foster long-term economic resilience in the overall transition to a carbon-neutral economy,

Use a regional approach that accounts for dynamics like shifting industries and talent pools,

Use a high-road approach to economic development to support the creation of quality jobs and equal access to those jobs; and support businesses that invest in their workforces, pay living wages, and engage in environmentally sustainable business practices, Center community and worker voices in inclusive economic planning processes and governance to enable more equitable outcomes.

Specifically, CERF will support communities and regional groups in producing regional roadmaps for economic recovery and transition that prioritize creating accessible, high-quality jobs in sustainable industries. The coalition selected the Los Angeles County Economic Development Corporation (LAEDC) to serve as the Regional Convener and the California Community Foundation as the Fiscal Agent for the High Road Transition Collaborative (HRTC) for the LA region.

"This coalition of dedicated public and private partners saw firsthand how the pandemic affected different communities in very different ways economically and otherwise, and now we have the opportunity to collectively develop a roadmap that will address the persistent inequities that the pandemic laid bare," said Bill Allen, President and CEO of LAEDC. "We are humbled to be chosen to convene our region so we can envision the future together and create informed consensus on how we want our economy to benefit us all. With the sheer size, diversity of perspectives and backgrounds, and deep knowledge base that exists in our coalition, we can ensure our economy will be able to recover in more equitable, sustainable and resilient ways."

"The pandemic magnified and exposed the social and economic inequalities that exist among Los Angeles' most vulnerable communities," said Antonia Hernández, President and CEO of the California Community Foundation. "Strengthening Los Angeles as we recover means an equitable and inclusive investment to ensure that under-resourced and historically disinvested communities have access to high skilled and high paying jobs. CCF is proud to have been selected to serve as the fiscal agent for CERF funding in Los Angeles County."

"This Community Economic Resilience Fund award offers a transformative opportunity for equitable and sustainable economic recovery in our LA County region, where many residents and small businesses are still reeling from the disproportionate effects of COVID-19. We know that a future that achieves this shared prosperity must also reflect power by design," said Kelly LoBianco, Executive Director of Los Angeles County Department of Economic Opportunity and governance committee member. "Our LA County High Road Training Collaborative will prioritize community-based decision-making, with leadership from historically marginalized voices, so that our collective investments are inclusive, collaborative, and transparent, resulting in real impact on agency and mobility for all community members and future generations."

"The LA CERF is committed to ensuring that individuals and stakeholders from all disinvested communities across the Los Angeles region are engaged, their needs identified and participate in the planning to create economic development strategies to meet CERF's objectives," said Stella Ursua, Senior Programs & Partnerships Manager at GRID Alternatives and outreach and engagement committee member. "We will prioritize equity as we plan for a just transition toward a carbon-neutral economy and find ways to institutionalize remedies to systemic barriers and disparities in access to opportunity for all. We are thrilled to have more than 200+ organizations work with us to deeply engage community members in robust planning and decision-making to eliminate processes that perpetuate a history of exclusion, injustice and inequity."

This commitment from the state of historic funding to the region will need to be matched with rigorous community engagement and sustained leadership in order to achieve a more equitable future for LA County," said Matt Horton, Milken Institute's director at the Center for Regional Economics and California Center and research committee member. "Having the tools to establish a new benchmark will help us envision that future, together."

"We have an incredible opportunity to harness once-in-a-generation Federal and State investments to build a low carbon economy that creates good-paying jobs," said Samuel Assefa, Director of the Office of Planning and Research. "We are thrilled to announce the CERF Planning Phase partnerships with organizations representing labor, community, business, and industry leaders to chart an inclusive and equitable economic future for all Californians."

"This announcement signifies a major step forward in economic development, as regional coalitions have come together across California ready to roll up their sleeves and build regional economic development strategies that will create more inclusive and vibrant economies built on a foundation of equity," said Dee Dee Myers, Senior Advisor to Governor Newsom and Director of the Governor's Office of Business & Economic Development. "As California and our federal partners work collaboratively to make significant investments to support local economies, these High Road Transition Collaboratives will play a major part in guiding these dollars to ensure the greatest impact for all Californians."

"This first-of-its-kind state investment recognizes that California is an ecosystem of diverse economies, each of which has its own challenges and opportunities," said Natalie Palugyai, Secretary of the California Labor & Workforce Development Agency. "By empowering regions to develop the blueprints for their own futures – and requiring that they do so in a manner that is inclusive and equitable – CERF is changing the way California views economic planning."

There will be two phases to the CERF process. Today's announcement is of Collaboratives who have been selected for \$5 million grants to perform the Planning Phase for their regions. Following the planning phase, the remaining allocated state funds will be awarded to the 13 regions identified by California for the Implementation Phase. Success during the Planning Phase will include inclusive, diverse, transparent, and accountable regional planning that results in a strategy and recommended series of investments to grow sustainable industries, diversify regional economies, and increase access to high-quality jobs.

To learn more about the Los Angeles Region CERF process, how to join the LA HRTC, or apply for a position supporting the coalition, please visit <u>www.laedc.org/CERF</u>.

L.A. County CERF Onboarding Form

Thank you for your interest in the California Economic Resiliency Fund (CERF) supporting Los Angeles County communities most in need of access to regional economic opportunities. To learn more about the LA County HRTC, please click **here**.

Completing this onboarding form incorporates you into the LA HRTC and the goal of the CERF initiative to creating a more inclusive, equitable, and resilient regional economy.

At the bottom of this form, please find a template to the **LA County Collective Partnership Agreement Letter**. LA HRTC members signing the Collective Partnership Agreement Letter should also consider that regional tables will evolve throughout the planning process to ensure they accurately capture the diversity of each region. The Collective Partnership Agreement Letter will be a fundamental component in developing trust, partnership, and a commitment to power-sharing among HRTC members.

After completing the survey please forward along to any partners that would be interested in joining the LA HRTC.

The form will take approximately **8 minutes** to complete.

For additional assistance please contact: cerf@laedc.org

PALMDALE WATER DISTRICT

BOARD MEMORANDUM

DATE:	April 18, 2023	April 24, 2023
TO:	BOARD OF DIRECTORS	Board Meeting
FROM:	Dennis J. Hoffmeyer, Finance Manager/CFO	
VIA:	Mr. Dennis LaMoreaux, General Manager	
RE:	AGENDA ITEM 8.1.b – STATUS REPORT ON REVENUE, AND EXPENSE AND DEPARTMENT MARCH 2023. (FINANCE MANAGER HOFFMEYE	TAL BUDGET REPORTS FOR

Discussion:

Presented here are the Balance Sheet and Profit/Loss Statement for the period ending March 31, 2023. Also included are individual departmental budget reports.

This is the 3rd month of the District's Budget Year 2023. Historical trends for the District have our revenues at 20.6% and expenses are 22.7%. This would typically be 25% for traditional budgetary percentages. Currently, we are on track for operating revenues and slightly below for expenses. Please refer to diagram A for a graphical representation of this information.

Balance Sheet:

- Pages 1 and 2 are the balance sheet for the 3-month period and a graphic presentation of Assets, Liabilities, and Net Position on March 31, 2023. Also included are pages 1A & 1B, the annual quarterly comparison for the month of March.
- The significant change was related to the investments. The investments show a decrease from the prior month, and this is due to the semi-annual payments of the bonds. On the liability side, we have the reduction of loan payable (current), and accrued interest payable (highlighted orange). The District saw a continued decrease in Restricted cash and cash equivalents related to payouts from the construction bond funds. This directly relates to increases in the capital assets portion (highlighted yellow). The net change between February and March was \$3.08 million for payouts.
- Referencing page 1A, starting with the District's assets. There is a year-to-year increase in assets of \$6.0 million. This was related to increases in total cash and investments (highlighted orange), accounts receivable property taxes and assessments due to increased property valuations (highlighted blue), and under the Non-Current Assets, there was a decrease in Restricted cash and cash equivalents with an increase in capital assets as spending increased on active projects (highlighted green). The second page 1B contains the liabilities and net position, where there is an increase shown related to the capital lease the District obtained in September 2022 (highlighted yellow).

FINANCE COMMITTEE PALMDALE WATER DISTRICT VIA: Mr. Dennis D. LaMoreaux, General Manager -2-

Profit/Loss Statement:

- Page 3 is our consolidated profit and loss statement trending for the three months.
- Operating revenues are on pace with historical averages.
- The District's operating expenses are slightly below historical averages at 20.0%.
- All departmental budgets except for the five highlighted orange, are at or below the historical average. The sediment removal project is at 71.5% of the budget (highlighted yellow) and this is due to the retention payment being made to our contractor.
- One area where staff will be reviewing is the interest on long-term debt (highlighted green) accounting. The interest paid through the escrow accounts, from the District's refinancing efforts in prior years, will need to be double-checked for accuracy. This may or may not require adjustments to the March numbers.
- Page 3A is the quarterly comparison between CY2022 and CY2023. Overall, revenues are up 2.3% year-to-year and expenses are down 13.7%. Contributing factors are the heavy rains that had decreases in water usage (highlighted yellow), departmental account increases (highlighted orange), and the significant differences in the source of supply-purchased water (highlighted green) where we had the Mojave Water transfer purchase in 2022. Under the Non-Operating Revenues, the interest is significantly greater (highlighted blue) and CIF fees are highlighted (red) to show the difference in collections.
- Pages 4 and 5 show the P&L in various graphic forms using major report category totals.

Department indicators

- All departments show higher health insurance expenses. This is related to the front loading of the employer portion of the HSA funding for those employees that are enrolled in the consumer-driven health plan for insurance. This will smooth out as the year progresses.
- The Administration District-wide has significant increases related to consultant charges (37.5%) and insurance (40.7%). Memberships/subscriptions (31.4%) are similar to the health insurance expenses where the District paid the annual AWWA, ACWA, and CSDA memberships and will continue to smooth out as the year progresses.
- The Information Technology Department's operating expenses have some accounts higher than average as reported last month. Most of their service contracts are renewed at the beginning of the year for the entire year. This should smooth out as the year progresses.

Departments:

• Pages 6 through 16 are detailed individual departmental budgets for your review.

Non-Cash Definitions:

Depreciation: This is the spreading of the total expense of a capital asset over the expected life of that asset.

OPEB Accrual Expense: Other Post-Employment Benefits (OPEB) is the recognized annual required contribution to the benefit. The amount is actuarially determined in accordance with the parameters of GASB 45. The amount represents a level of funding that, if paid on an ongoing basis, is projected to cover normal cost each year.

Bad Debt: The uncollectible accounts receivable that has been written off.

Service Cost Construction: The value of material, parts & supplies from inventory used to construct, repair, and maintain our asset infrastructure.

Capitalized Construction: The value of our labor force used to construct our asset infrastructure.

PALMDALE WATER DISTRICT BOARD MEMORANDUM

DATE:	April 18, 2023	April 24, 2023
TO:	BOARD OF DIRECTORS	Board Meeting
FROM:	Dennis J. Hoffmeyer, Finance Manager/CFO	
VIA:	Mr. Dennis LaMoreaux, General Manager	
RE:	AGENDA ITEM 8.1.d – OTHER FINANCIAL REF HOFFMEYER/FINANCE COMMITTEE)	PORTS. (FINANCE MANAGER

Discussion:

Presented here are financial-related items for your review.

- 1. Accounts receivable overview.
 - a. Shown below is the makeup of the various account types that have past due balances over 60 days with amounts greater than \$50.00. This includes their current outstanding balances as part of the total.

	Accounts	Outstanding	Over 90 Days
_ Remaining Accounts	3	\$14,045	-
Commercial/Industrial	12	\$8,246.66	\$643
Multi-Family Residential	2	\$2,357	\$337
Single Family Residential	973	\$276,308	\$31,382
SFR (Feb 2023)	1,074	\$315,018	\$38,358

- b. Staff continues working with the customers and offering payment arrangements to encourage payment on outstanding balances. Currently, we have 20 arrangements as of February 28. The amount in an arrangement is \$20,857 with \$6,241 already collected and \$14,616 outstanding.
- 2. Revenue Projections (attachment):
 - a. Revenue projections for 2023 based on selling 14,500 AF shown as of March 31, revenue is behind projections by approximately \$584,672. This amount has the drought surcharge included.
- 3. Payment transactions by type (attachment).
- 4. Billing and collection statistics (attachment).

MINUTES OF MEETING OF THE FINANCE COMMITTEE OF THE PALMDALE WATER DISTRICT, MARCH 21, 2023:

A meeting of the Finance Committee of the Palmdale Water District was held Tuesday, March 21, 2023, at 2029 East Avenue Q, Palmdale, CA 93550. Chair Wilson called the meeting to order at 1:39 p.m.

1) Roll Call.

Attendance: Committee: Don Wilson, Chair Kathy Mac Laren-Gomez, Committee Member

Others Present:

Dennis LaMoreaux, General Manager Adam Ly, Assistant General Manager Dennis Hoffmeyer, Finance Manager Judy Shay, Public Affairs Director Bob Egan, Financial Advisor Danielle Henry, Executive Assistant Patricia Guerrero, Management Analyst 0 members of the public

2) Adoption of Agenda.

It was moved by Committee Member Mac Laren-Gomez, seconded by Chair Wilson, and unanimously carried by all members of the Committee present at the meeting to adopt the agenda, as written.

3) Public Comments for Non-Agenda Items.

There were no public comments for non-agenda items.

4) Action Items: (The Public Shall Have an Opportunity to Comment on Any Action Item as Each Item is Considered by the Committee Prior to Action Being Taken.)

4.1) Consideration and Possible Action on Approval of Minutes of Meeting Held January 17, 2023.

It was moved by Committee Member Mac Laren-Gomez, seconded by Chair Wilson, and unanimously carried by all members of the Committee present at the meeting to approve the minutes of the Finance Committee meeting held January 17, 2023, as written.

4.2) Discussion and Overview of Cash Flow Statement and Current Cash Balances as of February 2023. (Financial Advisor Egan)

Financial Advisor Egan provided an overview of the monthly Major Account Activity Reports, Investment Funds Report, and Cash Flow Statement through February 2023, including assessments received, capital improvement fees, increased interest rates and market values, and the projected year-end balance followed by a brief discussion of Certificate of Deposit values, interest rates, inflation, and the Budget projection in relation to the drought.

4.3) Discussion and Overview of Financial Statements, Revenue, and Expense and Departmental Budget Reports for February 2023. (Finance Manager Hoffmeyer)

Finance Manager Hoffmeyer reviewed in detail the balance sheet, profit and loss statement, departmental budgets versus actual, and individual departmental budgets for the period ending February 2023 and stated that operating revenue is slightly above the historical trend average at 13.8%, that expenses are slightly below the historical trend average at 15.6%, and that most departments are operating at or below the traditional budgetary percentage of 16.7% followed by a brief discussion of the inflation impact on materials and fuel.

4.4) Discussion and Overview of Committed Contracts Issued. (Finance Manager Hoffmeyer)

Finance Manager Hoffmeyer provided an overview of the Contractual Commitments and Needs Report for new and replacement capital projects, consulting and engineering support projects, new and replacement equipment, water quality fee funded projects, committed and projected capital expenditures, and projects paid out through the 2021A Series Water Revenue Bonds through February 2023.

5) Reports.

- 5.1) Finance Manager Hoffmeyer:
 - a) Accounts Receivable Overview.

Finance Manager Hoffmeyer stated that as of February 2023, there are ten commercial/industrial accounts with a balance of \$50 or more and over sixty days past due with a total past due amount of \$7,636 and \$178 over ninety days past due; that there are seven multi-family residential accounts with a balance of \$50 or more and over sixty days past due with a total past due amount of \$7,561 and \$329 over ninety days past due; that there are 1,074 single-family residential accounts with a balance of \$50 or more and \$329 over ninety days past due; that there are 1,074 single-family residential accounts with a balance of \$50 or more and \$329 over ninety days past due; that there are 1,074 single-family residential accounts with a balance of \$50 or more and over sixty days past due with a total past due amount of \$315,018 and \$38,358 over ninety days past due; and that staff continues to offer payment arrangements encouraging the payment of outstanding balances with 21 arrangements made as of February 28.

b) Revenue Projections.

He then stated that based on selling 14,500 AF of water, revenue is behind projections by approximately \$316,000 as of February 2023.

c) Rate Assistance Program Status.

He then stated that as of March 15, 2023, the Rate Assistance Program is completely full with 695 qualified applicants including 448 accounts being seniors, 13 being veterans, 234 being low-income, and 5 spots reserved in the Program for pending applicants.

5.2) Financial Advisor Egan:

a) Debt Service Coverage Status.

Financial Advisor Egan stated that the Debt Service Coverage for February 2022 to January 2023 was 1.73 and for March 2022 to February 2023 is 1.78 and remains strong.

5.3) Other.

Finance Manager Hoffmeyer provided a brief overview of information received from Citizens Business Bank and UBS Bank USA regarding the safeguarding and stability of the District's accounts.

There were no other items to report.

Board Members' Requests for Future Agenda Items. 6)

There were no requests for future agenda items.

Date of Next Committee Meeting. 7)

It was determined that the next Finance Committee meeting will be held April 18, 2023 at 1:30 p.m.

Adjournment. 8)

There being no further business to come before the Finance Committee, the meeting was adjourned at 2:31 p.m.

poute

Chair

PALMDALE WATER DISTRICT BOARD MEMORANDUM

DATE:	April 19, 2023	April 24, 2023
TO:	BOARD OF DIRECTORS	Board Meeting
FROM:	Mr. Dennis D. LaMoreaux, General Manager	
RE:	AGENDA ITEM NO. 8.3.a – APRIL 2023 GENERA	L MANAGER REPORT

The following is the April 2023 report to the Board of activities through March 2023. It is organized to follow the District's 2022 Strategic Plan approved in October 2022 and composed of six strategic initiatives. The initiatives follow for reference. It is intended to provide a general framework to update the month's activities.

PWD 2022 STRATEGIC PLAN SUMMARY

Water Resource Reliability: Resilience, Development, Partnership

Support and participate with local agencies in the development of projects and policies that improve water reliability

Maximize state and federal funding opportunities for Pure Water AV

Support projects and initiatives that increase the resilience of the State Water Project

Develop water storage options for State Water Project supplies and improve groundwater capture capabilities

Strengthen stakeholder relationships and implement Littlerock Dam and Reservoir Sediment Removal Project

Organizational Excellence: Train, Perform, Reward

Offer competitive compensation and benefits package for employee recruitment and retention

Focus Succession Planning Program on ensuring an overlap of training for key positions

Continue providing transparency to our ratepayers through training for the ongoing achievement of the Districts of Distinction certification

Encourage cohesiveness, transparency, and integrity within the staff through Codes of Conduct and increased accountability

Ensure employees are trained on the Strategic Plan and the District's Values of Diversity, Integrity, Teamwork, and Passion

Improve safety for Directors, employees, and customers

Develop career paths at the District for interns and pursue state and federal funding for intern programs

Cultivate a positive culture and increase employee engagement

Systems Efficiency: Independence, Technology, Research

Explore energy independence and evaluate the feasibility of energy options, including wind and solar

Incorporate more energy efficient technologies into the District's infrastructure

Research state-of-the-art treatment techniques to enhance systems efficiency

Re-evaluate Lake Palmdale by-pass pipeline and pursue funding options

Improve Palmdale Ditch to reduce water loss

Financial Health and Stability: Strength, Consistency, Balance

Pursue grant funding for District projects and operations

Maintain the five-year financial plan adopted as part of the 2019 Water Rate Study, including the five-year Capital Improvement Plan

Conduct and adopt a 2024 five-year Water Rate Plan

Build adequate reserve levels and achieve high-level bond rating

Seek potential revenue sources from vacant District properties

Monitor finances, operations, and projects affected by emergencies

Digitize and document departmental workflows

Regional Leadership: Engage, Lead, Progress

Continue to provide opportunities and information for local businesses and agencies to contract with the District

Continue to collaborate with neighboring water agencies and move to include more agencies throughout and outside of the Antelope Valley through Greater Antelope Valley Mutual Response Agreements and emergency response exercises

Develop working relationships and mutually beneficial projects with other water agencies in the District's region

Develop strategies, alliances, and funding to make Littlerock Dam and Reservoir recreational again

Continue Memorandum of Understanding with United Water Conservation District to combine political forces to obtain grant funding and research other joint cooperative regional efforts

Continue representation on larger regional organizations such as the California Special Districts Association (CSDA) and the Association of California Water Agencies (ACWA) and assist with the growth and influence of the Special Districts Association of North Los Angeles County, a CSDA local chapter

<u>Customer Care, Advocacy and Outreach:</u> Promote, Educate, Support

Enhance customers' experience through communication and feedback

Expand and market additional payment options

Continue to increase public awareness of current programs and services through traditional and new media platforms

Engage elected officials and the public on the importance of local and state water reliability issues

Complete conversion to an Advanced Metering Infrastructure (AMI) to increase customers' knowledge of water use and promote customer self-help portal

Continue to increase public awareness of the on-going drought and the importance of conservation efforts

Publicize, engage, and educate the community about Pure Water AV

<u>Overview</u>

This report also includes charts that show the effects of the District's efforts in several areas. They are organized within each strategic initiative and include status of the State Water Resources Control Board's (SWRCB) former long-term conservation orders (20 x 2020), the District's total per capita water use trends, 2022 actual water production and customer use graph, mainline leaks, and the water loss trends for both 12- and 24-month running averages.

This initiative includes conservation efforts, water supply projects, and water planning. Recent highlights are as follows:

Overall Water Use Goals and Compliance

The 2020 Urban Water Management Plan was adopted by the District in June 2021. It does not relate the District's water use to the upcoming agency water budget requirement. Until these criteria are finalized, the customers' performance is shown in this report using the 20 x 2020 requirements.

The District's compliance with the former 20 x 2020 law is evident from the chart titled "PWD 12-Month Running Average Total Per Capita Water Use:"

The District's customers have cut their water use by **49.8%** from the baseline number of 231 re-established in the 2020 Urban Water Management Plan and met the 2020 Goal in early 2010. The current Metered-GPCD is 116 showing our customers' reduced usage.

Water Supply Information

The AV Adjudication is now entering its eighth year, and the rampdown to the native safe yield is complete. The District's native groundwater right is 2,769.63 AF. The District's 2023 groundwater rights will also include Carryover production rights from prior years, unused Federal Rights, and return flows from imported water. The final amounts will be determined within the next couple of months.

The full 2023 Water Resources Plan is unknown at this time. Storms in December through March have pushed precipitation past the yearly average. As a general statement, the District will minimize the use of groundwater to rest the wells and allow groundwater levels to recover. We will maximize the use of surface water.

Precipitation in the area that contributes to the State Water Project is now at 114% of average for the entire 2022-2023 Water Year (October through September) and 130% for this date. The initial State Water Project allocation was set at 5% in December and updated to 75% in March 2023. Additionally, Littlerock Reservoir began to spill on January 10, 2023 and has continued to spill.

The April 17, 2023 Northern Sierra precipitation is as follows:

5

BOARD OF DIRECTORS PALMDALE WATER DISTRICT

The March 20, 2023 major reservoir summary is as follows:

April 19, 2023

Another positive effect of the recent storms is a Northern Sierra snowpack that is 229% of the April 1 average. The following is a summary of the snowpack information.

CURRENT REGIONAL SNOWPACK FROM AUTOMATED SNOW SENSORS

% of April 1 Average / % of Normal for This Date

Statewide Average: 229% / 247%

Data as of April 17, 2023

2021-2023 Drought and District Response

It is easy to see this year's conditions are getting better. The following map of California shows the levels of drought in the state as of March 14, 2023 and April 11, 2023. The severity of the drought is greatly reduced. This map illustrates why the state has allowed the District to relax water conservation measures.

000000000

Intensity:

The Drought Monitor focuses on broad-scale conditions. Local conditions may vary. For more information on the Drought Monitor, go to https://droughtmonitor.unl.edu/About.aspx

Author: Brad Rippey U.S. Department of Agriculture

droughtmonitor.unl.edu

The Board approved moving into mandatory conservation on April 11, 2022 by enacting Stage 2 at 20% reduction compared to 2020 water use. The goal of this action was to try to reduce water use by 3,000 AF from May to the end of the year. 2,640.5 AF were saved from May through the end of the year. 2022 water production was 11.4% below 2020. The Governor has relaxed the drought regulations now and this section will phase out over the next few months.

The following graphs help to show the drought response by our customers. The first graph, "PWD Production Comparison (2022-23 vs 2020)," shows the monthly water production in both 2022-23 and 2020. Water production this year continues to be below the 2020 levels. This shows the customers have done a good job of conserving water by turning off outdoor watering during and after rains.

The second graph, "PWD Monthly and Cumulative Water Production Saving Percentage (2022-23 vs. 2020)," illustrates the difference between each month in 2022-23 and 2020. Less production, or savings, in 2022-23 is shown in blue and more production is shown in red. This shows that customers are responding to the drought from May 2022 to March 2023 with **18.1%** in savings in March. It also shows the cumulative savings from January 2022 through March 2023 of **12.0%**.

2023 and Historical Water Use Information

The following graph is the projected monthly water consumption and production for 2023 based on the prior five years of actual monthly information. The projected total consumption is based on the 2023 Budget amount of 14,500 AF, an 8.8% reduction from 2022 actual water use. The actual 2022 consumption amount was 15,904.5 AF. This is a reduction of 11.6% from 2021 due to the drought conservation measures.

Actual amounts are shown through March 2023. The 2022 graph shows the projected and actual water use for that year.

The following graph shows the historical water production and consumption for the District over the last few decades. It is interesting to see that both water production and consumption now are very close to the early 1990's though the District has more customers.

Other Items

 The Littlerock Reservoir Sediment Removal Project (Project) Environmental Impact Report/Environmental Impact Statement (EIR/EIS) was fully approved in 2017. The Project consists of three phases. The Grade Control Structure is Phase 1 and was completed in January 2020. Phase II is the removal of 1.2 million cubic yards (CY) of sediment from the reservoir. Staff worked with Aspen Environmental to secure all the necessary permits for this year from Labor Day through December. The project was advertised, and bids were opened for the full first year of sediment removal. However, the bids were rejected due to the high costs. Staff negotiated with interested contractors on a smaller project for 2022. Work began the week of September 12, 2022 and ended in November due to rainfall. A total of 58,418 cubic yards, or 36 AF, of sediment were removed.

The focus of using recycled water for a stable potable water supply has shifted to advanced water treatment and groundwater augmentation called Pure Water AV. The program management firm assisting the District with the project is Stantec. Current activities include evaluating delivery methods, branding, developing a funding strategy, and the preliminary demonstration facility design.

Staff is working the Sanitation Districts of Los Angeles County, District 20 (LASD) and the City of Palmdale as collaborators or partners in the project. Pure Water AV will put the already highly treated tertiary recycled water to a higher beneficial use and satisfies LASD's goals for use of the water. The City is interested in the project for the potential benefits to the area's parks and landscaping without the construction of a purple pipe distribution system.

• The Upper Amargosa Creek Recharge Project construction is complete. The project partners, City of Palmdale, LA County Waterworks, and AVEK are now finalizing the operation and maintenance agreement.

The City of Palmdale recently notified the project partners about the mitigation requirements and costs. The two stages, 11.28 acres and 38.72 acres, of mitigation are being finalized with the regulatory agencies. The estimated construction costs are \$1,715,662 and \$3,567,595, respectively, and will be built several years apart. The City received \$1,000,000 in grant funding toward the first phase costs. The District's anticipated share for the first phase is approximately \$75,000.

The Project is operating this year due to the available water from the SWP. Natural runoff in Amargosa Creek is limiting the amount of recharge so far this year. However, the District expects to be able to recharge approximately 1,600 AF during the year.

• Littlerock Creek Wash recharge: AVEK, LCID, and the District are working with DWR and the AV Watermaster Engineer to use Littlerock Wash to recharge temporarily available SWP water.

BOARD OF DIRECTORS PALMDALE WATER DISTRICT

Delta Conveyance Design and Construction Authority (DCA): This joint power authority is responsible for the environmental, design, and engineering of the project and works with the Department of Water Resources (DWR) on the project. The Board includes two seats for the East Branch, Class 8, of the California Aqueduct. The Class 8 agencies are AVEK, PWD, Littlerock Creek Irrigation District (LCID), Mojave Water Agency (MWA), Crestline-Lake Arrowhead Water Agency, San Gabriel Valley Municipal Water District, San Bernardino Valley Municipal Water District (SBVMWD), San Gorgonio Pass Water Agency, Desert Water Agency, and Coachella Valley Water District (CVWD).

The Delta Conveyance Project (DCP) is moving to the next step of a Draft EIR/EIS (Draft) for the public's review. The Department of Water Resources released the Draft on July 27, 2022. The public review period is over and DWR is working to address comments received about the Draft. A Final EIR is expected late this year or early in 2024.

This initiative includes efforts to restructure staff duties and activities to more efficiently provide service to our customers. Recent highlights are as follows:

- Nearly 80 percent of the District's staff is required to have certifications or licenses issued by the State of California. Many of these have continuing education requirements which must be met by technical training. The District provides for this in several ways including hosting classes given by the California Rural Water Association, having a training budget for staff to attend conferences, and providing an education tuition allowance for each employee.
- The District has continued to find ways for internships and training opportunities for college and high school students who are interested in the water industry. The Board authorized paid internships for the remainder of 2022. Two interns worked with District staff in the Customer Care and Resource and Analytics areas.
- A salary survey with comparable water agencies was completed, changes incorporated into the 2023 Budget, and the results were approved by the Board of Directors in February 2023.
- Staff is beginning to use the telecommuting policy. It allows schedules with a maximum of 25% of time working out of the office.

Systems Efficiency Independence, Technology, Research

This initiative largely focuses on the state of the District's infrastructure. Recent highlights are as follows:

The effects of the District's past efforts in replacing failing water mains can be seen in the reduced number of mainline leaks. The mainline leaks for 2022 total 24, one every 17 miles, with 88 service line leaks. This is a substantial change from the 781 mainline leaks, one every one-half mile, in 2010. There was one mainline leak in March 2023, and now two for the year. This is illustrated in the following chart titled "PWD Mainline Leak History."

- Additional water main replacement projects are being designed for construction as planned in the 2019 Water Rate Plan. A number of projects were completed in 2022. The next project at Avenue R and 27th Street East will be completed by staff.
- The positive effect of both water main and water meter replacement programs is also shown on the chart titled "PWD Water Loss History." The running average for water losses is nearly 6%.

- The use of batteries for backup power is complete and operational at four booster facilities. This program was funded and managed by the California Public Utilities Commission. The grant funds went directly to Tesla and its contractors. Tesla will maintain these facilities for ten years.
- The District approved two solar PV projects to provide energy for wells, the clearwell booster, and the Leslie O. Carter Water Treatment Plant in December. One will be located north of the maintenance yard and will provide power for a set of wells. The other will be located between Avenue S and Avenue R-8 on the west side of the railroad tracks. It will provide power for the clearwell booster and Leslie O. Carter Water Treatment Plant.

<u>Financial Health and Stability</u> Strength, Consistency, Balance

- The Littlerock Sediment Removal Project was awarded \$1,100,000 through the AVIRWMP Grant Program in the current round of funding due to Phase II being suspended. This grant is part of \$2.8M the District used for sediment removal last year.
- The 2019 Water Rate Study and Proposition 218 was completed when the Board unanimously approved Resolution No. 19-15. This set the water rate structure and water rates for 2020-2024 and includes criteria to evaluate the District's financial condition each year. It gives the Board the ability to reduce the water rates if the District's financial position meets four (4) of the criteria in an annual review while preparing the following year's budget. These were reviewed while preparing the 2023 Budget.

Staff is beginning to collect information to prepared for the new water rate study in 2024. The timeline is tentative at this time. The process will include issuing a request for proposals for a financial consultant, the development of forecasts of expenses and needed revenues, public input, and the adoption of a new water rate plan.

- Fitch Ratings reviewed the District's bond rating in December 2022. The review affirmed the District's rating with them of "A+" with a stable outlook. This is a good result considering the uncertainty of operating in the COVID-19 pandemic.
- The District is seeking assistance from the State's SAFER Program to provide water service to the Alpine Springs Mobile Home Park on Sierra Highway. It has poor water quality from its well, has several health violations, and now relies on hauled water. Maria Kennedy, Kennedy Communications, is experienced with these programs and is contracted with the District to accomplish it. An agreement is now in place to fund water hauling until the connection to the District is approved by the State, constructed, and operational.

Regional Leadership Engage, Lead, Progress

This initiative includes efforts to involve the community, be involved in regional activities, and be a resource for other agencies in the area. Recent highlights are as follows:

- Activities of the Palmdale Recycled Water Authority (PRWA), AV Integrated Regional Water Management Plan (IRWMP), and Antelope Valley State Water Contractors Association have continued. The District has leadership positions in these organizations. District staff is active in the local chambers, AV EDGE, regional human resources, and public information organizations.
- The PWRA Board consists of two Palmdale City Councilmembers, two PWD Board members, and a public director, Zakeya Anson. Construction of new purple pipe with PRWA are on hold as the District works on the Pure Water AV Project.
- The District staff has completed its portion of the work to transition Antelope Valley Watermaster Board (AVWB) administration to the Hallmark Group. Staff has also assisted Hallmark in clarifying finances.
- The "PWD Water Ambassador Academy" (WAA) is scheduled in April 2023 and a oneday Junior WAA is being discussed for later this year.
- The District and other members of the Public Water Agencies Group (PWAG) share the services of an Emergency Preparedness Coordinator. This approach also helped the

District successfully comply with the America's Water Infrastructure Act (AWIA) of 2018 and respond to the COVID-19 event.

 Staff has taken a lead role in developing and implementing a valley-wide mutual aid agreement for agencies and mutual water companies.

United Water Conservation District Memorandum of Understanding

The District and United Water Conservation District (United) approved a memorandum of understanding (MOU) to work cooperatively on projects where our interests overlap. These include internships and cooperation with community colleges, combined recreational funding for Piru and Littlerock Reservoir recreational improvements, and assistance and funding of advanced treatment of recycled or brackish water for potable use projects.

This MOU and our joint activities were the subject of a presentation given at the 2022 CSDA Annual Conference by United General Manager and me. The presentation and associated article were well received and generated positive interest and a number of questions.

There have been several meetings between District staff and United Human Resources staff to discuss apprenticeship programs, intern programs, and work with three community college districts to support water-related curriculum. The first action item from these meetings was the funding of PWD interns for 2022. Participation in interview panels and the development of a mutual aid agreement are also being done.

Recreation staff from United met with District staff and visited the Littlerock Recreation Area in March. They provided good advice and input on a rough plan for helping the Area open in 2024. Staff worked with the Angeles National Forest (ANF) as the first step in clearing the prior recreational concessionaire's property in the recreational area. All the property now belongs to the ANF. A hazardous material survey is being funded to begin the process of clearing the site.

Several other meetings have been held regarding the use of available State Water Project (SWP) supplies. District and United staffs are working with other East Branch SWP contractors on ways to recategorize water and avoid having water go unused. This is expected to make additional water available for United and the District. A draft term sheet will be drafted and presented to both Boards in early 2023 for SWP exchanges.

Additional coordination will also be focused on both agency's advanced water treatment projects. The United project will treat brackish groundwater for a potable use by the military. The PWD project, Pure Water AV, will treat tertiary water for potable

use by our customers. Once Pure Water AV is more established, joint meetings with state and federal representatives will be held to get funding assistance. Staff also visited United's desilting basin in November to observe United's sediment removal process.

Lastly, I have proposed regular meetings of both Boards' liaisons and general managers. These will help us stay coordinated and make sure our efforts are productive despite the passing of Dr. Mathis. A dinner meeting was held in April and we will likely touch base at the ACWA Spring Conference in May. Items discussed include whether to find another consultant to assist the districts, coordinating our lobbying activities, and updating our advanced water treatment project information.

This initiative includes efforts to better serve our customers. Recent highlights are as follows:

- The Board approved moving forward with a new supplier, meter brand, and reading system to replace the systems approved in September 2020. This transition is well underway.
- The ability to make payments at 7-Eleven and Family Dollar Store as well as all electronic forms of payment critical for customers during the COVID-19 event. Despite the open lobby, some customers have stayed with alternate payment methods.
- The Rate Assistance Program reached capacity by February. Staff continually monitors it for openings and will begin taking applications for 2023 in November 2022. The Board approved changes to the program to increase the funds, standardize the monthly assistance to \$20.00 per month, and provide assistance to 700 customer accounts in 2023. The program is fully enrolled as of the end of February.
- Staff successfully conducted virtual coffee meetings with Directors and their constituents, online "Let's Talk H2O" meetings, issued regular internal and public newsletters, coordinated drive-through giveaways for customers, an in-person customer appreciation day, monitored and maintained the District's social media, and assisted with information for the current drought. In-person workshops have also been held.
- Staff has finished updating the public website and beginning work to complete the intranet.
